- NOTES**
1. Refer to "Roadway Standard Drawings NCDOT" dated January 2012 and "Standard Specifications for Roads and Structures" dated January 2012.
  2. Do not program signal for late night flashing operation unless otherwise directed by the Engineer.
  3. Locate new cabinet so as not to obstruct sight distance of vehicles turning right on red.
  4. Rewire all existing signal heads and loops for new cabinet.
  5. Pavement markings are existing unless otherwise shown.
  6. Maximum times shown in timing chart are for free-run operation only. Coordinated signal system timing values supersede these values.
