3 Phase Fully Actuated
SR 4771 (Reedy Fork Parkway) CLS
Signal System: 10727

NOTES

- Refer to "Roadway Standard Drawings NCDOT" dated January 2018 and "Standard Specifications for Roads and Structures" dated January 2018.
- Do not program signal for late night flashing operation unless otherwise directed by the Engineer.
- Program controller for start up in phase 4 Red Clear and phase 8 Red Clear.
- Set all detector units to presence mode.
- Locate new cabinet so as not to obstruct sight distance of vehicles turning right on red.
- Omit phase 8 during phase 6 on.
- Program controller to clear from phase 6 to phase 8 by progressing through phase 7.
- Omit phase 7 during phase 8 on.
- Omit "WALK" and flashing "DON'T WALK" with no pedestrian calls.
- Program pedestrian heads to countdown the flashing "Don't Walk" time only.
- Maximum times shown in timing chart are for free-run operation only. Coordinated signal system timing values supersede these values.
- Closed loop system data:
Controller Asset #: 0905

ASC/3 TIMING CHART

FEATURE	PHASE				
	4	6	7 (DUMMY)	8	9 (ALL RED)
