NOTE: All draw bridges are to be opened at least once a week. The machinery, gates, etc., especially gears and bearings, are to be inspected at least once a week and are to be kept thoroughly lubricated. Reports are to be sent immediately after the last day of each month to the District Engineer. An accident or serious damage to the fender system, the bridge, or machinery, is to be reported at once by telephone to the District Engineer. A report of an accident or damage is to be made on the regular form and forwarded immediately. On back of this sheet, note any unusual disorder, noise in operation of bridge mechanism, amperage fluctuation, unusual occurrence, etc. Particular attention is to be paid to all navigation and warning lights, which are to be kept in first class condition at all times.

NOTE: All draw bridges are to be opened at least once a week. The machinery, gates, etc., especially gears and bearings, are to be inspected at least once a week and are to be kept thoroughly lubricated. Reports are to be sent immediately after the last day of each month to the District Engineer. An accident or serious damage to the fender system, the bridge, or machinery, is to be reported at once by telephone to the District Engineer. A report of an accident or damage is to be made on the regular form and forwarded immediately. On back of this sheet, note any unusual disorder, noise in operation of bridge mechanism, amperage fluctuation, unusual occurrence, etc. Particular attention is to be paid to all navigation and warning lights, which are to be kept in first class condition at all times.

NOTE: All draw bridges are to be opened at least once a week. The machinery, gates, etc., especially gears and bearings, are to be inspected at least once a week and are to be kept thoroughly lubricated. Reports are to be sent immediately after the last day of each month to the District Engineer. An accident or serious damage to the fender system, the bridge, or machinery, is to be reported at once by telephone to the District Engineer. A report of an accident or damage is to be made on the regular form and forwarded immediately. On back of this sheet, note any unusual disorder, noise in operation of bridge mechanism, amperage fluctuation, unusual occurrence, etc. Particular attention is to be paid to all navigation and warning lights, which are to be kept in first class condition at all times.
