RELOCATION REPORTS

SECTION C.1

RELOCATION REPORTS FOR TIER 2 DETAILED STUDY ALTERNATIVES

SECTION C.1 RELOCATION REPORTS FOR TIER 2 DETAILED STUDY ALTERNATIVES

The relocations shown in the reports in this section were based on functional design for the alternatives, and were broken down into segments. Since the Preferred Alternative relocations (shown in Section C.2) were based on a more refined preliminary design, those will not correlate precisely with the relocations taken from these reports totaled up for the segments comprising Alternative 21 (the Preferred Alternative).

Table C-1 identifies the segment associated with each numbered alternate shown on the relocation reports. Since much of the relocations information was prepared during the evaluation of the detailed study alternatives, some segment designations match those alternatives. Alternate Segments 21, 22, and 23 were segment modifications, and were prepared later in the study. The table indicates the exhibit on which the corresponding segment is shown.

Segment Designation	Relocation Report Alternate Segment #	Exhibit #
A-B	1	2-9
B-J	5	2-9
C'-J	8	2-9
C'-K'	9	2-9
J-K	12	2-9

M-N (Revised)	22	2-14
N-P (Revised)	23	2-14

Table C-2 indicates the segments that comprise each Tier 2 detailed study alternative. Both the node endpoint segments and the relocation report alternate segment numbers are shown.
