Date: September 16, 2026

Location: DOT CCA Technical Services Conf. Room

CP4B Interagency Coordination Meeting Agenda – Segment 1

Attendees:

TBD

General

1. Review U-5706 redline drainage plan sheets for segment 1 (PSH 04-06 & 16-18)

2. Bank and Channel Stabilization

- General approach is to show channel stabilization (rip rap in bed) at pipe outlets.
 - o Discuss details
 - o Should filter fabric be used in the bed?
- Pipes not to be buried in wetland areas.

3. Existing SCM's on Project

- Zaxby's Properties (Wetland WR)
 - o Existing SCM anticipated to be impacted by the project.
- ALDI (NC) LLC (Wetland WS)
 - o Existing SCM not anticipated to be impacted by the project.

4. Final Survey File

- Discuss any discrepancies with JS linework and NRTR
 - o Stream SG (PSH18)
 - Should JS begin at 18" pipe outlet?
