BRIDGING DECISIONS AND ALIGNMENT REVIEW

NC 111 (Catherine Lake Road) Extension from US 258 (Richlands Highway) to SR 1308 (Gum Branch Road)

Onslow County

STIP Project U-5733

North Carolina Department of Transportation
Division 3

MERGER CONCURRENCE POINT NUMBER 2A

AUGUST 28, 2019

1. Introduction

The North Carolina Department of Transportation (NCDOT) proposes to extend NC 111 (Catherine Lake Road) from US 258 (Richlands Highway) to SR 1308 (Gum Branch Road) north of Jacksonville, in Onslow County (**Figure 1**). The project includes a potential new location crossing of the New River.

Because of the potential impacts to human and natural resources, State Transportation Improvement Program (STIP) Project U-5733 is following the Section 404/NEPA Merger Process. Coordination with the resource agencies have included:

- External Scoping Meeting on September 14, 2016
- Combined Concurrence Point 1 and 2 Merger Meeting on October 17, 2018

1.1. Project Background

The project is in the 2018-2027 NCDOT STIP that was approved by the NCDOT Board of Transportation on August 3, 2017 and most recently revised March 1, 2019. Though not currently programmed, NCDOT Division 3 anticipates State funding will be utilized for this project. Right-of-way (ROW) and Construction funding are scheduled for Fiscal Year (FY) 2023 and 2025, respectively. The current STIP cost estimate is presented in **Table 1**.

Table 1. 2018-2027 STIP U-5733 Cost Estimate

Phase	Cost Estimate
Right of Way	$2,107,000
Utilities	$500,000
Construction	$37,576,000
Total*	**$41,183,000**

*includes $1,000,000 in prior years costs.

Note: cost estimates are subject to change.

Note: This project is not funded for right of way or construction in the Draft 2020 – 2029 STIP. Existing funding remains to complete environmental planning through the Least Environmentally Damaging Practicable Alternative (LEDPA) selection (Concurrence Point 3).

1.2. Nearby STIP Projects & Local Transportation Plan

The 2018-2027 STIP lists four projects in the area of U-5733 (**Table 2**).

Table 2. Nearby STIP Projects

STIP	Route	Location/Description	Funding Schedule	
			ROW	Construction
2018-2027 STIP				
U-4906	SR 1308 (Gum Branch Road)	West of SR 1313 (Mills Field Road) to East of SR 1324 (Ramsey Road) in Jacksonville. Widening.	*In progress*	2019

Table 2. Nearby STIP Projects

STIP	Route	Location/Description	Funding Schedule	
			ROW	Construction
U-5319	SR 1308 (Gum Branch Road)	SR 1470 (Western Boulevard) in Jacksonville. Improve intersection.	*Complete*	2018
U-6081	NC 53 (Western Boulevard)	SR 1308 (Gum Branch Road) to US 17 (Marine Boulevard). Widening.	2025	2027
U-5791A	SR 2714 (Jacksonville Parkway Extension)	NC 53 (Western Boulevard) to SR 1324 (Ramsey Road). Widen to multi-lanes, part on new location.	2022	2024
U-5791B	SR 2714 (Jacksonville Parkway Extension)	SR 1324 (Ramsey Road) to US 17 (New Bern Highway). Widen to multi-lanes, part on new location.	Future (Unfunded)	Future (Unfunded)
DRAFT 2020-2029 STIP				
U-5793A	SR 1308 (Gum Branch Road)	SR 1324 (Ramsey Rd) to SR 1390 (Country Club Blvd). Upgrade to multi-lane reduced conflict intersection (RCI) design.	2027	2029
U-5793B	SR 1308 (Gum Branch Road)	SR 1322 (Summersill School Road) to SR 1324 (Ramsey Rd). Upgrade roadway to a RCI design.	2027	2029
U-5903	R 1336 (Henderson Drive)	SR 1308 (Gum Branch Road) to NC 53 (Western Boulevard). Upgrade to a multi-lane RCI design.	2027	2029
U-6200	SR 1308 (Gum Branch Road)	Williamsburg Parkway to Indian Drive. Upgrade 5-lane cross section to a multi-lane RCI design.	2027	2029
U-6148	US 258 (Richlands Highway)/NC 24	SR 1329 (Rhodestown Fire Department Road). Improve intersection.	2026	2028

2. Merger Concurrence Points 1 and 2

2.1 Concurrence Point 1

The Merger Team met and concurred on the project Purpose and Need and Study Area on October 17, 2018.

The purpose of the project is:

> The primary purpose of the proposed project is to improve the transportation network in the project study area to benefit mobility and connectivity. The project will achieve improved mobility by reducing overall vehicle hours traveled (VHT) in the transportation network. The project will achieve improved connectivity in central Onslow County by reducing travel times in the project vicinity and providing a roadway connection closer to activity centers in Jacksonville.

The need for the project is:

> The need to be addressed by the proposed project is to improve network mobility and connectivity between Gum Branch Road and US 258 in the project area.

The study area boundary is shown on **Figure 1** and is described as follows:

> The study area is roughly bounded by NC 111 and US 258 to the west, Rhodestown Road (SR 1316) to the north, Gum Branch Road (SR 1308) to the east and Ramsey Road (SR 1324) and NC 111 to the south. Each boundary is buffered 250 feet.

2.2 Concurrence Point 2

The Merger Team met and concurred on the Detailed Alternatives Carried Forward on October 17, 2018. The Detailed Alternatives include the No Build as well as the following Build Alternatives and are depicted on **Figure 2**.

- **Build Alternative 1A (Southern Alternative)** - realign NC 111 to a new intersection with US 258; construct new alignment roadway to cross the New River on new location to the existing Ramsey Road and Gum Branch Road intersection; purchase right of way for a future multi-lane roadway. (See attached figures.)
- **Build Alternative 1B (Southern Variant Alternative)** - realign NC 111 to a new intersection with US 258; construct new alignment roadway to cross the New River on new location to the existing Ramsey Road and Gum Branch Road intersection; purchase right of way for a future multi-lane roadway. (See attached figures.)
- **Build Alternative 2 (Middle Alternative)** - realign NC 111 to intersect Briarneck Road; improve Briarneck Road for approximately one mile; construct new alignment roadway to cross the New River on new location to a new Gum Branch Road intersection; purchase right of way for a future multi-lane roadway.

3. Water Resources

Jurisdictional streams and wetlands are located in the study area and are shown in the appended Natural Resource Technical Report figures (**Appendix A**). Seventy-seven streams were identified within the study area and included three named streams: New River, Half Moon Creek, and Bachelors Delight Swamp. The remainder are unnamed tributaries (UTs) to these streams. These streams are considered jurisdictional surface waters under Section 404 of the Clean Water Act. All jurisdictional streams have been designated as warm water streams for the purposes of mitigation. Stream and surface water information are found in **Table 3**.

							TOTAL	75,563				

There are no designated High Quality Waters (HQW), Outstanding Resource Waters (ORW), or water supply watersheds (WS-I or WS-II) within or within 1.0 mile downstream of the study area. The North Carolina 2018 Final 303(d) list of impaired waters does not identify any impaired waters within the study area. There are no trout waters within the study area and Onslow County is not a designated trout county. The study area does not contain habitat identified as Primary Nursery Areas. The New River within the study area is designated as an inland Anadromous Fish Spawning Area (AFSA). An AFSA Construction Moratorium is anticipated and will be determined through coordination with the NC Wildlife Resources Commission (NCWRC).

Ninety-seven jurisdictional wetlands were identified within the study area. The locations of these wetlands are shown in **Appendix A**. All wetlands in the study area are located within the White Oak River basin (USGS Hydrologic Unit 03020302). Wetland information is found in **Table 4**.

WEJ	3F	Headwater Forest	Medium	Non-Riparian	0.11
WEK	3J	Hardwood Flag	Medium	Non-Riparian	1.96
				Total	342.12

Three Coastal Area Management Act (CAMA) Areas of Environmental Concern (AEC) are present in the study area. A Public Trust Water AEC are present on Half Moon Creek, Bachelors Delight Swamp, and the New River within the study area. There are no coastal wetlands present in the study area.

Total impacts by build alternative for streams and wetlands are shown in **Table 5**.

Table 5: Total Potential Impacts* to Streams and Wetlands by Build Alternative

Resource	Alternative 1A (Southern Alternative)	Alternative 1B (Southern Variant Alternative)	Alternative 2 (Middle Alternative)
Streams (ft)	1,672.6	1,822.1	3,796.1
Wetlands (ac)	5.5	5.9	13.6

*Impacts measured based on slope stake limits plus an additional 40 feet.

Jurisdictional areas identified during original field investigations were verified by Brad Shaver of the U.S. Army Corps of Engineers (USACE) and Joanne Steenhuis of the NC Division of Water Resources (NCDWR) on October 30-31, 2018 and March 28, 2019. The Preliminary Jurisdictional Determination (PJD) was approved by the USACE on May 9, 2019.

4. CP2A: Major Hydraulic Crossings

Major hydraulic crossings are those with a contributing drainage area requiring conveyance greater than a 72-inch pipe. A total of six potential major hydraulic crossings were identified for the proposed project. These structures are described in **Table 6** and additional information including the site map and individual site plan and photographs are included in **Appendix B**.

Table 6. Major Hydraulic Structures[1] Recommendations, Cost Estimate, and Potential Impacts by Alternative

SITE NO	ROUTE	STREAM NAME	NRTR MAP ID	NCDWR STREAM INDEX NUMBER	STREAM/ WETLAND SIZE (ft / ac)	STREAM CLASS	DRAINAGE AREA	EXISTING STRUCTURE	ALTERNATIVE 1A (Southern Alternative)			ALTERNATIVE 1B (Southern Variant Alternative)			ALTERNATIVE 2 (Middle Alternative)		
								Number, Size, Structure Type	Recommended Structure	Cost Estimate	Potential Stream/ Wetland Impact[2]	Recommended Structure	Cost Estimate	Potential Stream/ Wetland Impact[2]	Recommended Structure	Cost Estimate	Potential Stream/ Wetland Impact[2]
1	NC 111 Extension	UT to New River	SDB/ WCE	19-(1)	2,042 / 19.5	C; NSW	538 ac	None	1 @ 7' x 8' RCBC	$450,000	459 ft / 1.0 ac	See Note (3)					
2	NC 111 Extension	New River	New River (SB)/ WDA	19-(1)	7,820 / 126.1	C; NSW	111.2 sq mi	None	Bridge min length[4, 5] = 2,545' (2@100', 3@115', 20@100')	$14.9M	0 ft / 3.9 ac	Bridge min length[4, 5] = 2,545' (2@100', 3@115', 20@100')	$14.9M	0 ft / 4.0 ac			
3	NC 24	UT to New River	ST	19-(1)	3,072	C; NSW	2.17 sq mi	2 @ 8' x 9' RCBC									
4	NC 111 Extension	New River	New River (SB)/ WBR/ WBM	19-(1)	7,820/ (WBR) 5.0/ (WBM) 7.7	C; NSW	99.8 sq mi	None							Bridge min length = 1,100' (11@100')	$6.1M	0 ft / (WBR) 0.53 ac (WBM) 0.95 ac
5	SR 1308 (Gum Branch Rd)	UT to Bachelors Delight Swamp	SBE[6]/ WBH	19-5	903/ 0.2	C; NSW	388 ac	103" x 71" CSPA							1 @ 7' x 7' RCBC	$290,000	385 ft/ 0.15 ac
6	SR 1308 (Gum Branch Rd)	Bachelors Delight Swamp	Bachelor's Delight Swamp (SDK)	19-5	528	C; NSW	8.5 sq mi	3 @ 137" x 87" CMPA							3 @ 10' x 8' RCBC	$219,000	179.5 ft

NOTES:

(1) Major Hydraulic Structures - conveyance greater than 72-inch pipe

(2) Impacts based on slope stake limits plus 40 feet.

(3) Gray shading indicates that this Site is not crossed by the alternative.

(4) Minimum bridge length is the minimum length required to span the floodway and have a “no rise”. It is not the minimum length required for the hydraulic opening.

(5) To span both wetlands on either side of the proposed bridge, an additional approximately 1,000 ft of additional bridge length would be required.

(6) All streams except Stream SBE are perennial. Stream SBE is intermittent.

5. Project Schedule

Table 7 provides the tentative milestone schedule for this project (subject to change). The funding schedule is consistent with the 2018-2027 STIP. NCDOT is evaluating an accelerated delivery schedule.

Table 7. STIP Project U-5733 Schedule

Milestone	**Schedule***
Concurrence Point 2A	Summer 2019
Concurrence Point 3A	Winter 2019
Final Environmental Document+	Winter 2019/2020
Begin ROW Acquisition	FY 2023
Begin Construction	FY 2027

*tentative, subject to change; +anticipate StateEA/FONSI

Section 404/NEPA Merger Project Team Meeting Agreement

Concurrence Point No. 2A

Project Purpose and Need and Study Area Defined

Project Name/Description: US 258 (Richlands Highway) to SR 1308 (Gum Branch Road). Construct Extension of NC 111 on new location. **STIP Project: U-5733**

The Merger Team has concurred on this date of August 28, 2019, on the major hydraulics structures as shown in **Table 6** of the CP2A Merger Packet for STIP Project U-5733.
