DENR Division of Water Quality
1650 Mail Service Center
Raleigh, NC 27699-1650

ATTENTION: Ms. Nicole Thomson
NCDOT Coordinator

SUBJECT: **Permit Modification Request to Riparian Buffer Certification** for the proposed replacement of Bridge No. 246 over Little Arm Branch on SR 2564 (Creech Road) in Wake County, Division 5. Federal Aid Project No. BRSTP-2564(1), State Project No. 8.2406901, T.I.P. B-3376.

Dear Madam:

On October 27, 2004, a Neuse Buffer Rules Authorization Certificate (DWQ No. 041464) was issued. Permitted activities included impacts to protected riparian buffers associated with NCDOT's proposed replacement of Bridge No. 246 over Little Arm Branch on SR 2564 (Creech Road) in Wake County. The proposed bridge will be approximately 105 feet in length and 35 feet in width, with a 24 foot travel way and with 4 - 7 foot offsets. Traffic will be detoured onsite, using a temporary bridge located upstream of the existing bridge during construction. The detour bridge will be approximately 80 feet in length. The new bridge will be constructed to span Little Arm Branch, [DWQ Index #27-34-11(2)].

In the original application dated, August 30, 2004, impacts associated with Driveway 1 Sta. 10+05 in Riparian Buffer Zones 1 and 2 were not addressed. The additional impacts to Neuse River Riparian Buffers are as follows: an additional 197 ft^2 of Zone 1 impacts and 347 ft^2 of Zone 2 impacts will be associated with installing a 375mm pipe related to driveway work from Sta. 10+00 to ~10+05 -DRIVE1- within the Neuse River Basin (03-04-03, HUC 03020201). These impacts are depicted in the attached revised permit drawings sheet 8 and sheet 9 of 13. Additionally, in the buffer certification dated October 27, 2004, utility impacts associated with Buffer Zone 2 were incorrectly classified as impacts requiring mitigation. Only impacts to buffers in Zone 1 for the construction of the sewer line and the above-mentioned additional impacts to Zone 1 and 2 from the driveway work will require mitigation. Project plan sheets and the CE document were distributed along with the original application.

MAILING ADDRESS:
NC DEPARTMENT OF TRANSPORTATION
PROJECT DEVELOPMENT AND ENVIRONMENTAL ANALYSIS
1598 MAIL SERVICE CENTER
RALEIGH NC 27699-1598

TELEPHONE: 919-715-1500
FAX: 919-715-1501
WEBSITE: WWW. NCDOT.ORG

LOCATION:
2728 CAPITAL BLVD
PLB SUITE 168
RALEIGH NC 27604

Additionally, the impact table that was received for the original buffer application was shown in square meters. It was converted to acres for the buffer application, then DWQ converted the impacts into square feet. When the numbers were converted from square meters to acres then again to square feet, they deviated anywhere from 0-30 square feet from the original impact amounts the hydraulic engineers calculated (Table 1).

Table 1. Conversion Deviation Totals

Impact Locations	Original Amount (Zones 1 & 2)	Conversion Deviation*	Deviation Total (ft^2)
STA -L- 12+66-12+85	2,265	2,283	18
STA -L- 12+99-13+10	2,178	2,204	26
DET STA 11+68-12+24	5,794	5,816	22
DET STA 12+39-12+54	2,352	2,382	30
STA -L- 12+38-12+48	523	531	0
STA -L- 12+77-12+93	1,219	1,240	21
Total	**14,331**	**14,456***	**117**

*not including additional roadway impacts (544 ft^2)

New Impacts to Waters of the United States

There will be no impacts to Waters of the United States.

New Impacts to Wetlands

There will be no impacts to wetlands.

Impacts to Neuse River Basin Buffers

Table 2. Neuse Riparian Buffer Impacts (Square Feet) as reported in 10/27/04 Buffer Certification

	Sewer Line/MH Parallel Impact	Bridge Construction
Zone 1 Impact (sq. ft.)	653	3,616
Zone 2 Impact (sq. ft.)	1,089	8,973
TOTAL IMPACTS	**1,742**	**12,589**
Mitigation requirements (exempt, allowable or allowable with mitigation)	Zone 1: Allowable with Mitigation Zone 2: Allowable with Mitigation	Allowable Allowable
Mitigable Impacts (using 3:1 ratio) for Zones 1	1,959	N/A
Mitigable Impacts (using 1:1.5 ratio) for Zones 2	1,634	N/A
TOTAL MITIGATION REQUIRED	**3,593**	**N/A**

NCDOT has previously made payment for buffer impacts associated with the October 27, 2004 buffer certification. Impacts previously mitigated for in Zone 1 total 1,959 ft^2 and 1,634 ft^2 in Zone 2 equaling 3,593 ft^2 (see Table 2). Additional impacts from the roadway will require a total of 1,112 ft^2 of mitigation (see Table 3). Additional impacts associated with conversion deviations total 63 ft^2. Since we have already mitigated for 1,634 ft^2 of impacts for the sewer line, which is not required, we have a net reduction in required mitigation of 459 ft^2. Therefore, no additional mitigation will be required.

Table 3. Revised amount Neuse Riparian Buffer Impacts (Square Feet)

	Sewer Line/MH Parallel Impact	**Bridge Construction**	**Roadway**
Zone 1 Impact (sq. ft.)	674	3,646	197
Zone 2 Impact (sq. ft.)	1,097	9,039	347
TOTAL IMPACTS	**1,771**	**12,685**	**544**
Mitigation requirements (exempt, allowable or allowable with mitigation)	Zone 1: Allowable with Mitigation Zone 2: Allowable	Allowable Allowable	Zone 1: Allowable with Mitigation Zone 2: Allowable with Mitigation
Mitigable Impacts (using 3:1 ratio) for Zone 1	2,022	N/A	591
Mitigable Impacts (using 1:1.5 ratio) for Zone 2	N/A	N/A	521
TOTAL MITIGATION REQUIRED	**2,022**	**N/A**	**1,112**

Protected riparian buffer impacts for the entire project now total 4,517 ft^2 for Zone 1 and 10,483 ft^2 for Zone 2 (see Table 3 Total Impacts row).

Regulatory Approvals

By copy of this application, the NCDOT requests that the NC Division of Water Quality review the proposal for modification to the approval of the Neuse Buffer Rules Authorization Certificate (DWQ No. 041464).

Thank you for your assistance with this project. If you have any questions or need additional information please call Ms. Cheryl Knepp at (919) 715-1489.

Sincerely,

Gregory J. Thorpe, Ph.D.
Environmental Management Director, PDEA

DATUM DESCRIPTION

THE LOCALIZED COORDINATE SYSTEM DEVELOPED FOR THIS PROJECT IS BASED ON THE STATE PLANE COORDINATES ESTABLISHED BY NCDOT FOR MONUMENT "B3376-1" WITH NAD 83 STATE PLANE GRID COORDINATES OF
NORTHING: 218812.248 EASTING: 645890.466
THE AVERAGE COMBINED GRID FACTOR USED ON THIS PROJECT (GROUND TO GRID) IS: 0.99989708
THE NC LAMBERT GRID BEARING
LOCALIZED HORIZONTAL GROUND DISTANCE FROM
"B3376-1" TO -L- STATION 12+00.000 IS
N 4° 20' 37.11" E DISTANCE 582.673m
ALL LINEAR DIMENSIONS ARE LOCALIZED HORIZONTAL DISTANCES
VERTICAL DATUM USED IS NGVD 29
