Dear Sirs:

Subject: **Application for Section 10 Permit, Section 404 Nationwide Permits 3 & 12, Section 401 Water Quality Certification, and CAMA Major Development Permit** for the Replacement of Bridge No. 19 on eastbound US 158 over the Pasquotank River in Pasquotank and Camden Counties. Federal Aid Project No. STP-0158(31) TIP No. U-4438, Debit $475.00 from WBS Element 35742.1.1.

Please find enclosed the North Carolina Division of Coastal Management Major Permit Forms, Pre-Construction Notification (PCN) form, permit drawings, roadway plans, utility plans, and stormwater management plan for the above referenced project. The adjacent riparian landowner return receipts will be forwarded upon receipt. An Environmental Assessment and Finding of No Significant Impact were completed for this project on April 29, 2009 and January 28, 2010 respectively and distributed shortly thereafter. Additional copies are available upon request.

The North Carolina Department of Transportation (NCDOT), Division of Highways, in consultation with the Federal Highway Administration (FHWA), proposes improvements to US 158 from NC 34 (Waters St.) to US 17 Business (Road St.), including the replacement of the existing 846-foot Bridge No. 19 with a new bridge of the same length over the Pasquotank River in Pasquotank and Camden Counties. Utilities that cross the Pasquotank River will be relocated as a result of project construction. Additionally, proposed improvements to the existing stormwater collection system will result in impacts to Poindexter Creek. Proposed permanent impacts are 0.01 acre to wetlands due to fill, 0.01 acre due to excavation, and 0.03 acre of fill in surface waters. The proposed let date for the project is April 19, 2011 with a review date of March 1, 2011. However, the let date may advance as additional funds become available.

Regulatory Approvals

Section 10 Permit: The NCDOT request that the crossing of the Pasquotank River be authorized via a Section 10 Permit.

Section 401 Permit: We anticipate 401 General Certification numbers 3687 and 3819 will apply to this project. NCDOT is providing five copies of this application to the North Carolina Department of Environmental and Natural Resources, Division of Water Quality for their approval.

CAMA: NCDOT requests that the proposed bridge work and utility work associated with the electric line from the bridge tender's house to the movable bridge spans be authorized under a Coastal Area Management Act Major Development Permit. All other proposed utility work has been requested via a CAMA General Permit that was submitted on September 27, 2010. The landowner receipts will be provided once they have been received. Authorization to debit the $475 Permit Application Fee from WBS Element 35742.1.1 is hereby given.

A copy of this permit application will be posted on the NCDOT Website at: http://www.ncdot.org/doh/preconstruct/pe/. Thank you for your assistance with this project. If you have any questions or need additional information, please contact Chris Rivenbark at crivenbark@ncdot.gov or (919) 431-6762.

Dear Landowner:

The North Carolina Department of Transportation is planning improvements to US 158 from NC 34 (Waters St.) to US 17 Business (Road St.) including the replacement of Bridge No. 19 over the Pasquotank River in Pasquotank and Camden Counties. The project will replace the existing 846-foot bridge, which is structurally deficient and functionally obsolete, with a new structure of the same length. This project crosses an Area of Environmental Concern, as defined by the North Carolina Division of Coastal Management (DCM), and must be approved by the DCM under provisions of the Coastal Area Management Act (CAMA). One of the prerequisites to this approval is that adjacent riparian landowners be given an opportunity to comment on the proposal. A permit application, vicinity map, and site drawings are enclosed for your review. *Please note that this proposed work is in addition to the utility work proposal you received several weeks ago.*

The attached form is submitted to ensure that you have an opportunity to comment on the proposal. The work planned is depicted in the attached drawing. If you have **no** objections to the proposal, please return the form with your response within 30 days to this office. If you **do** have objections to the project, please forward your comments to:

ADJACENT RIPARIAN LANDOWNER STATEMENT

Pasquotank and Camden Counties:
Replace Bridge No. 19 over the Pasquotank River
NCDOT TIP U-4438

General Statutes and Division of Coastal Management Major Development Permit approval procedures require that riparian landowners with property adjoining a proposed development in an Area of Environmental Concern (AEC) be given thirty (30) days in which to comment on the proposed development. This form allows the adjacent riparian landowner to express either: (1) that he objects to the project; or, (2) that he does not object and desires to waive his/her right to the 30-day period so that the processing of the application can progress more rapidly. Of course, the adjacent riparian landowner need not sign this form at all if he/she so chooses.

I, _____ , am an adjacent riparian property owner and am aware of the North Carolina Department of Transportation's plans for replacing Bridge No. 19 on eastbound US 158 over the Pasquotank River in Pasquotank and Camden Counties, North Carolina. I am further aware that this work will occur in one or more Areas of Environmental Concern and therefore will require authorization from the Division of Coastal Management in accordance with the Coastal Area Management Act (CAMA).

_____ I have no objection to the project as presently proposed and hereby waive that right of objection as provided in General Statute 113-229.

_____ I have objections to the project as presently proposed and my comments are attached.
