Attention: Ms. Liz Hair
NCDOT Coordinator

Subject: **Application for a Phased Section 404 Individual Permit and Section 401 Water Quality Certification** for the proposed widening of SR 1102 (Gillis Hill Road) from US 401 (Raeford Road) to SR 1418 (Lindsay Road), Cumberland and Hoke Counties. TIP No. U-5798A and U-5798B. Debit $570 from WBS 44369.1.2

Dear Madam:

The North Carolina Department of Transportation (NCDOT) proposes improve 1.8 miles of SR 1102 (Gillis Hill Road) from US 401 (Raeford Road) to SR 1418 (Lindsay Road) in Cumberland and Hoke Counties (U-5798A & B).

The purpose of this letter is to request approval for a Phased Section 404 Individual Permit and Section 401 Water Quality Certification. In addition to this cover letter, this application package includes the following for U-5798: ENG Form 4345, stormwater management plan, final permit drawings for Section A, preliminary permit drawings for Section B, roadway plans for Section A, DMS acceptance letters for both sections are included.

Purpose and Need

The purpose and need for the proposed action is to reduce congestion on SR 1102 (Gillis Hill Road) and in the vicinity of the Rockfish community. The project will also replace the structurally deficient and functionally obsolete Bridge No. 250075 over Little Rockfish Creek.

Project Description

STIP Project U-5798 proposes to widen SR 1102 (Gillis Hill Road) in Cumberland and Hoke Counties. The existing two-lane road is proposed to be widened to a four-lane, median-divided facility. U-5798 will be divided into two sections, U-5798A and U-5798B:

• U-5798A – Section A proposes to widen SR 1102 (Gillis Hill Road) to a curb and gutter facility with four 12-foot lanes and a 17.5' raised median from north of SR 1112 (Stoney Point Road) to US 401 (Raeford Road). This section of the project will also include the replacement of the existing Bridge No. 250075 over Little Rockfish Creek. Section A proposes to include 4-foot bike lanes and 5-foot sidewalks on each side of the roadway.

Mailing Address:
NC DEPARTMENT OF TRANSPORTATION

1598 MAIL SERVICE CENTER
RALEIGH NC 27699-1598

Telephone: (919) 707-6000
Fax: (919) 212-5785
Customer Service: 1-877-368-4968
Website: www.ncdot.gov

Location:
1020 BIRCH RIDGE DRIVE
RALEIGH NC 27610

• U-5798B – Section B proposes to widen SR 1102 (Gillis Hill Road) to a graded shoulder section with four 12-foot lanes and a 17.5' raised median with a 4-foot paved shoulder. The project will begin at SR 1418 (Lindsay Road) and end at North of SR 1112 (Stoney Point Road).

Summary of Impacts

Section A (Final)

Proposed permanent impacts to jurisdictional areas total 232 linear feet of impact to jurisdictional streams. There is a proposed 0.63 acre of permanent impact to riparian wetlands. Of this impact 0.50 acre is permanent fill, 0.09 acre mechanized clearing and <0.01 acre of excavation. Additionally, 0.31 acre of hand clearing is proposed. Utility relocation will result in 0.04 acre of permanent wetland impact (0.04 ac. fill and <0.01 mechanized clearing) and 0.13 acre of hand clearing.

Section B (Preliminary)

Proposed preliminary impacts to jurisdictional areas total 0.84 acre to riparian wetlands and 815 linear feet to jurisdictional steams. Potential impacts due to utility relocation are not available at this time. Any impacts attributed to utilities will be addressed prior to Letting of Section B.

Summary of Mitigation

The NCDOT has avoided and minimized impacts to jurisdictional resources to the greatest extent possible. The Department has acquired the compensatory mitigation for these unavoidable impacts from the North Carolina Department of Environmental Quality (NCDEQ)-Division of Mitigation Services (DMS) for both the A section and the preliminary impacts presented for Section B.

Project Schedule

Currently, U-5798A is scheduled to Let March 15, 2022, however this project may be accelerated. U-5798B is scheduled to Let on February 18, 2025.

NEPA Document Status

A Minimum Criteria Design Checklist (MCDC) was completed and approved in October 2019. This document is available at https://xfer.services.ncdot.gov/pdea/EnvironmentalDocs/Documents/.

NEPA Merger Process

A merger screening meeting was held at the on March 5, 2019. From this meeting it was deemed that due to the limited nature of the project, the NEPA 404 Merger Process was not necessary.

Resource Status

The project is located in the Cape Fear River Basin and lies within Hydrologic Unit 03030004. This is within the southern inner coastal plain physiographic region.

A preliminary jurisdictional determination (SAW-2020-00079) was received from USACE on February 13, 2020.

Impacts to Jurisdictional Resources

Wetlands

Wetland impacts occur in the Cape Fear River Basin in HUC 03030004. Wetland impacts due to construction for U-5798(All Sections) total 1.32 acre. Table 1 lists the impacts to wetlands for this project. Impacts are based upon final design for U-5798A and preliminary impacts for U-5798B.

Table 1. U-5798 Wetland Impacts

Permit Drawing Site Number	JD Map Label	Type	Permanent Impacts (ac.)
Section A (Final)			
1	WB/WC/WE/ WF/WG/WH	Riparian	0.46 (0.41 ac. perm. fill, <0.01 ac. excavation, 0.05 ac. mech. clearing)
2	WA	Riparian	0.12 (0.09 ac. perm. fill, 0.03 ac. mech. clearing)
Section A Total: (Final)		**0.58**	
Section B (Preliminary)			
2	WI	Riparian	0.69 (0.63 ac. perm. fill, 0.06 excavation)
3	WJ	Riparian	0.15 (0.15 ac. perm. fill)
Section B Total: (Preliminary)		**0.74**	
Total: (All Sections)			**1.32***

***Does not include utility impacts**

An additional 0.31 acre of hand clearing will occur in wetlands in the A section. Hand clearing impacts have not been calculated for Section B at this time and will be addressed prior to the Section B Letting.

Table 2. U-5798A Utility Wetland Impacts

Permit Drawing Site Number	JD Map Label	Type	Permanent Impacts (ac.)
Section A (Final)			
1	WC	Riparian	<0.01 (<0.01 ac. perm. fill)
2	WA	Riparian	0.04 (0.03 ac. perm. fill, 0.01 ac. mech. clearing)
Section A Total: (Final)		**0.04**	

Utility impacts to riparian wetlands for Section A totals 0.04 acre. This is for the relocation of overhead powerlines, encasement of the sanitary sewer line and relocation of a water line. An additional 0.13 acre of hand clearing will occur due to utilities. Potential impacts due to utility relocation for Section B are not available at this time. Any impacts attributed to utilities in this section will be addressed prior to Letting of Section B.

Streams

Surface water impacts occur in the Cape Fear River Basin in HUC 03030004. Permanent stream impacts for U-5798 (All Sections) totals 1,047 linear feet. Tables 3-4 list the site number, reference number, stream name and amount of impact.

The Little Rockfish Creek, Stewarts Creek and their tributaries have a best usage classification of C within the project area. No streams impacted are listed in the Final 2018 303(d) report.

Table 3. U-5798 Streams Impacted and Description (Final)

Permit Drawing Site Number	JD Map Label	Stream Name	Perennial/Intermittent
Section A (Final)			
1*	Little Rockfish Creek/SA	Little Rockfish Creek	Perennial
Section B (Preliminary)			
1	SC	UT to Stewarts Creek	Perennial
4	Stewarts Creek	Stewarts Creek	Perennial

*Little Rockfish Creek is a braided channel on the upstream side of Bridge 75.

Table 4. U-5798 Stream Impacts

Permit Drawing Site Number	Impact Type	Permanent Stream Impacts (ft)	Temporary Stream Impacts (ft)
Section A (Final)			
1	Channel Relocation/ Bridge	232	26
Section A Total: (Final)		**232**	**26**
Section B (Preliminary)			
1	Cross Pipe	660	0
4	Cross Pipe	155	0
Section B Total: (Preliminary)		**815**	**0**
Total: (All Sections)		**1,047**	**26**

There are no proposed impacts to jurisdictional streams due to utilities for Section A. Utility impacts for Section B have not been calculated at this time and will be addressed prior to that section Let.

Open Water

There are no permanent open water impacts associated with U-5798. Impacts from Table 4 are also provided in acreage format on the included Wetland And Surface Water Impacts Summary.

Protected Species

As of July 17, 2020, the United State Fish and Wildlife Service (USFWS) lists eight (8) federally protected species for Cumberland and Hoke Counties (Table 5).

Table 5. Federally protected species listed for Cumberland and Hoke Counties

Common Name	Scientific Name	Status	County	Habitat Present	Biological Conclusion
American alligator	*Alligator mississippiensis*	T(S/A)	C, H	No	Not Required
American chaffseed	*Schwalbea americana*	E	C, H	No	No Effect
Cape Fear shiner	*Notropis mekistocholas*	E	C	No	No Effect
Michaux's sumac	*Rhus michauxii*	E	C, H	Yes	No Effect
Pondberry	*Lindera melissifolia*	E	C	Yes	No Effect
Red-cockaded woodpecker	*Picoides borealis*	E	C, H	Yes	No Effect
Rough-leaved loosestrife	*Lysimachia asperulaefolia*	E	C, H	Yes	No Effect
Saint Francis' satyr butterfly	*Neonympha mitchelli francisci*	T	C, H	No	No Effect

T-Threatened, T (S/A)-Threatened due to similarity of appearance, E-Endangered. C-Cumberland, H-Hoke

Suitable habitat was deemed present for pondberry, Michaux's sumac, rough-leaved loosestrife and red-cockaded woodpecker within the study area during surveys conducted in 2019. Updated surveys for these species was conducted on June 4, 2021. No specimens were found.

Northern long-eared bat

The US Fish and Wildlife Service has revised the previous programmatic biological opinion (PBO) in conjunction with the Federal Highway Administration (FHWA), the US Army Corps of Engineers (USACE), and NCDOT for the northern long-eared bat (NLEB) (*Myotis septentrionalis*) in eastern North Carolina. The PBO covers the entire NCDOT program in Divisions 1-8, including all NCDOT projects and activities. Although this programmatic covers Divisions 1-8, NLEBs are currently only known in 19 counties, but may potentially occur in 11 additional counties within Divisions 1-8. NCDOT, FHWA, and USACE have agreed to two conservation measures which will avoid/minimize mortality of NLEBs. These conservation measures only apply to the 30 current known/potential counties shown on Figure 2 of the PBO at this time. The programmatic determination for NLEB for the NCDOT program is **May Affect, Likely to Adversely Affect**. The PBO will ensure compliance with Section 7 of the Endangered Species Act for ten years (effective through December 31, 2030) for all NCDOT projects with a federal nexus in Divisions 1-8, which includes Cumberland and Hoke Counties, where U-5798 is located.

Bald and Golden Eagle Protection Act (BGPA)

A desktop-GIS assessment of the project study area, as well as the area within a 1.0-mile radius of the project limits, was performed on April 25, 2019 using 2017 color aerials. Several water bodies large enough or sufficiently open to be considered potential feeding sources were identified. A survey of the project study area and the area within 660 feet of the project limits was conducted on May 14, 2019. No individuals or nests were observed. The GIS assessment was reviewed to identify any changes from the 2019 analysis, but none were found. The previously established areas were re-surveyed on June 4, 2021 and no individuals or nests were observed. Additionally, a review of the NHP records on July 12, 2021 revealed no known occurrences of this species within 1.0 mile of the project study area. Due to the lack of observed presence and recorded occurrences, and the minimal impact anticipated for this project, it has been determined that this project will not affect this species.

Moratoria

There are no construction moratoria associated with this project.

Cultural Resources

Historic Architecture

A Historic Structures Survey Report was completed for potentially eligible resources within or in proximity to the project study area. The Gillis Farmstead and the McInnis House were Determined Eligible for the National Register of Historic Places (NRHP). The State Historic Preservation Office made a determination of No Adverse Effects to the Historic Resources on October 8, 2019.

Archeological Resources

An archaeological survey and evaluation of the Area of Potential Effects (APE) was conducted from February 28 to April 19, 2019 by AECOM Technical Services of North Carolina, Inc. (AECOM) under contract to the NCDOT. Site 31CD2209 represents a mill complex shown on mid-nineteenth century maps. Multiple elements of the mill complex retain integrity, including the mill dam, foundations of two mill buildings, and an historic road trace. 31CD2209 has been determined eligible for listing on the NRHP. Since avoidance of this historic resource is not feasible, mitigation in the form of data recovery was warranted. Recovery efforts

have concluded and the State Historic Preservation Office issued an End of Fieldwork Management Summary on July 12, 2021.

FEMA Compliance

The project has been coordinated with appropriate state and local officials and the Federal Emergency Management Agency (FEMA) to assure compliance with FEMA, state, and local floodway regulations.

Mitigation Options

The NCDOT is committed to incorporating all reasonable and practicable design features to avoid and minimize jurisdictional impacts, and to provide full compensatory mitigation of all remaining, unavoidable jurisdictional impacts. Avoidance measures were taken during planning and NEPA compliance stages; minimization measures were incorporated as part of the project design.

Avoidance and Minimization

All jurisdictional features were delineated, field verified and surveyed within the corridor for U-5798. Using these features, preliminary designs were adjusted to avoid and/or minimize impacts to jurisdictional areas. NCDOT employs many strategies to avoid and minimize impacts to jurisdictional areas in all of its designs. Many of these strategies have been incorporated into BMP documents that have been reviewed and approved by the resource agencies and which will be followed throughout construction. All wetland areas not affected by the project will be protected from unnecessary encroachment. Individual avoidance and minimization items are as follows:

- Proposed bridge replacements will contain no deck drains
- The bridges will have two catch basins located at the end of the approach slab to collect deck drainage with an outlet on the downstream side, into a proposed ditch.
- Riprap pads will be used at the outlets to reduce velocities into wetlands

Compensation

The NCDOT has avoided and minimized impacts to jurisdictional resources to the greatest extent possible as described above. The unavoidable impacts to wetlands will be offset by compensatory mitigation provided by the North Carolina Department of Environmental Quality (NCDEQ)-Division of Mitigation Services (DMS). An acceptance letter from DMS is attached.

Indirect and Cumulative Effects

An Indirect and Cumulative Effects (ICE) screening was completed and concluded that no further study is warranted.

Regulatory Approvals

Section 404: Application is hereby made for a USACE Individual 404 Permit as required for the above-described activities.

Section 401: We are requesting a Section 401 Water Quality Certification from NCDWR. We are providing this application to NCDEQ, for their approval. Authorization to debit the $570 Permit Application Fee from WBS Element 44369.1.2 is hereby given.

A copy of this permit request and its distribution list will be posted on the NCDOT website at: https://connect.ncdot.gov/resources/Environmental/Pages/default.aspx.

Thank you for your assistance with this project. If you have any questions or need additional information, please contact Jason Dilday at jldilday@ncdot.gov or (919) 707-6111.

Sincerely,

11. I hereby authorize, _____ to act in my behalf as my agent in the processing of this application and to furnish, upon request, supplemental information in support of this permit application.

_____ _____
SIGNATURE OF APPLICANT DATE

NAME, LOCATION, AND DESCRIPTION OF PROJECT OR ACTIVITY

12. PROJECT NAME OR TITLE (see instructions)
U-5798

13. NAME OF WATERBODY, IF KNOWN (if applicable)	14. PROJECT STREET ADDRESS (if applicable)
Little Rockfish Creek and UTs, Stewarts Creek and UTs	Address
15. LOCATION OF PROJECT Latitude: ◦N 35.011581 Longitude: ◦W -79.055723	City - State- Zip-

16. OTHER LOCATION DESCRIPTIONS, IF KNOWN (see instructions)
State Tax Parcel ID Municipality
Section - Township - Range -

17. DIRECTIONS TO THE SITE

Please see attached vicinity map and cover letter.

18. Nature of Activity (Description of project, include all features)

STIP Project U-5798 proposes to widen SR 1102 (Gillis Hill Road) in Cumberland and Hoke Counties. The existing two-lane road is proposed to be widened to a four-lane, median-divided facility. U-5798 will be divided into two sections, U-5798A and U-5798B:

• U-5798A – Section A proposes to widen SR 1102 (Gillis Hill Road) to a curb and gutter facility with four 12-foot lanes and a 17.5' raised median from north of SR 1112 (Stoney Point Road) to US 401 (Raeford Road). This section of the project will also include the replacement of the existing Bridge No. 250075 over Little Rockfish Creek. Section A proposes to include 4-foot bike lanes and 5-foot sidewalks on each side of the roadway.
• U-5798B – Section B proposes to widen SR 1102 (Gillis Hill Road) to a graded shoulder section with four 12-foot lanes and a 17.5' raised median with a 4-foot paved shoulder. The project will begin at SR 1418 (Lindsay Road) and end at North of SR 1112 (Stoney Point

19. Project Purpose (Describe the reason or purpose of the project, see instructions)

The purpose and need for the proposed action is to reduce congestion on SR 1102 (Gillis Hill Road) and in the vicinity of the Rockfish community. The project will also replace the structurally deficient and functionally obsolete Bridge No. 250075 over Little Rockfish Creek.

USE BLOCKS 20-23 IF DREDGED AND/OR FILL MATERIAL IS TO BE DISCHARGED

20. Reason(s) for Discharge

Impacts will result from widening the roadway and shoulders.

21. Type(s) of Material Being Discharged and the Amount of Each Type in Cubic Yards:

Raleigh, North Carolina 27699-1598

Dear Mr. Harris:

Subject: Mitigation Acceptance Letter:

U-5798A, Widening of SR 1102 (Gillis Hill Road) from North of SR 1112 (Stoney Point Road) to US 401 (Raeford Road) and Replace Bridge 250075 over Little Rockfish Creek, Cumberland County

The purpose of this letter is to notify you that the Division of Mitigation Services (DMS) will provide the compensatory stream and wetland mitigation for the subject project. Based on the information supplied by you on July 16, 2021, the impacts are located in CU 03030004 of the Cape Fear River basin in the Southern Inner Coastal Plain (SICP) Eco-Region, and are as follows:

Cape Fear 03030004 SICP	Stream			Wetlands			Buffer (Sq. Ft.)	
	Cold	Cool	Warm	Riparian	Non-Riparian	Coastal Marsh	Zone 1	Zone 2
Impacts (feet/acres)	0	0	232.000	0.630	0	0	0	0

*Some of the stream and/or wetland impacts may be proposed to be mitigated at a 1:1 mitigation ratio. See permit application for details.

The impacts and associated mitigation needs were under projected by the NCDOT in the 2021 impact data. DMS will commit to implement sufficient compensatory mitigation credits to offset the impacts associated with this project as determined by the regulatory agencies using the delivery timeline listed in Section F.3.c.iii of the In-Lieu Fee Instrument dated July 28, 2010. If the above referenced impact amounts are revised, then this mitigation acceptance letter will no longer be valid and a new mitigation acceptance letter will be required from DMS.

If you have any questions or need additional information, please contact Beth Harmon at 919-707-8420.

Sincerely,

Elizabeth Harmon

Project Length (lin. miles or feet):	1.072 mi.	**Surrounding Land Use:**	Agriculture, Woods, Light Residential and Commercial

	Proposed Project	**Existing Site**
Project Built-Upon Area (ac.)	15.1 ac.	5.3 ac.
Typical Cross Section Description:	Four 12-foot lanes with curb and gutter and 4-foot bike lanes. 5-foot sidewalks on each side of the roadway.	Two 12-foot lanes with 1' paved shoulder section on both sides.
Annual Avg Daily Traffic (veh/hr/day):	Design/Future: 30400 Year: 2041	Existing: 16700 Year: 2017

General Project Narrative: (Description of Minimization of Water Quality Impacts)

Section A of U-5798 proposes to widen SR 1102 (Gillis Hill Road) to four 12-foot lanes with a median from the north side of Stoney Point Road (SR 1112) to US 401 and will include construction of two parallel bridges over Little Rockfish Creek to replace the existing structurally deficient, functionally obsolete bridge. The proposed bridges will be built to the west (upstream) of the existing structure. The left bridge (southbound) is 1@127' and 1@115', with 63" FIBS with cap of varying depth. The right bridge (northbound) is 1@113' and 1@115' with 54" FIBS with cap of verying depth. The proposed bridges will not require deck drains. The bridges will have two catch basins located at the end of the approach slab to collect deck drainage with an outlet to the downstream side of the bridge into a proposed ditch. Rip rap pads will be used at all outlets to reduce velocities into wetlands.

Waterbody Information

Surface Water Body (1):	Little Rockfish Creek	**NCDWR Stream Index No.:**	18-34-24-(1)
NCDWR Surface Water Classification for Water Body		**Primary Classification:**	Class C
		Supplemental Classification:	None
Other Stream Classification:	None		
Impairments:	None		
Aquatic T&E Species?	Yes	Comments:	American Alligator (Not Required), Cape Fear Shiner (No Effect, Michaux's Sumac (No Effect), Pondberry (No Effect), Red-cockaded Woodpecker (No Effect), Rough-leaved Loosestrife (No Effect), Saint Francis' Satyr Butterfly (No Effect), Northern long-eared bat (May Affect, Likely to Adversely Affect)
NRTR Stream ID:	Little Rockfish Creek	**Buffer Rules in Effect:**	N/A
Project Includes Bridge Spanning Water Body?	Yes	**Deck Drains Discharge Over Buffer?**	No
Deck Drains Discharge Over Water Body?	No	(If yes, provide justification in the General Project Narrative)	(If yes, describe in the General Project Narrative; if no, justify in the General Project Narrative)
(If yes, provide justification in the General Project Narrative)

BOUNDARIES AND PROPERTY:

- State Line
- County Line
- Township Line
- City Line
- Reservation Line
- Property Line
- Existing Iron Pin — EIP
- Computed Property Corner
- Property Monument — ECM
- Parcel/Sequence Number — 123
- Existing Fence Line
- Proposed Woven Wire Fence
- Proposed Chain Link Fence
- Proposed Barbed Wire Fence
- Existing Wetland Boundary — WLB
- Proposed Wetland Boundary — WLB
- Existing Endangered Animal Boundary — EAB
- Existing Endangered Plant Boundary — EPB
- Existing Historic Property Boundary — HPB
- Known Contamination Area: Soil — S
- Potential Contamination Area: Soil — S
- Known Contamination Area: Water — W
- Potential Contamination Area: Water — W
- Contaminated Site: Known or Potential

BUILDINGS AND OTHER CULTURE:

- Gas Pump Vent or U/G Tank Cap
- Sign — S
- Well — W
- Small Mine
- Foundation
- Area Outline
- Cemetery
- Building
- School
- Church
- Dam

HYDROLOGY:

- Stream or Body of Water
- Hydro, Pool or Reservoir
- Jurisdictional Stream — JS
- Buffer Zone 1 — BZ 1
- Buffer Zone 2 — BZ 2
- Flow Arrow
- Disappearing Stream
- Spring
- Wetland
- Proposed Lateral, Tail, Head Ditch — FLOW
- False Sump

RAILROADS:

- Standard Gauge — CSX TRANSPORTATION
- RR Signal Milepost — MILEPOST 35
- Switch — SWITCH
- RR Abandoned
- RR Dismantled

RIGHT OF WAY & PROJECT CONTROL:

- Secondary Horiz and Vert Control Point
- Primary Horiz Control Point
- Primary Horiz and Vert Control Point
- Exist Permanent Easement Pin and Cap
- New Permanent Easement Pin and Cap
- Vertical Benchmark
- Existing Right of Way Marker
- Existing Right of Way Line
- New Right of Way Line — RW
- New Right of Way Line with Pin and Cap — RW
- New Right of Way Line with Concrete or Granite R/W Marker — RW
- New Control of Access Line with Concrete C/A Marker — CA
- Existing Control of Access — CA
- New Control of Access — CA
- Existing Easement Line — E
- New Temporary Construction Easement — E
- New Temporary Drainage Easement — TDE
- New Permanent Drainage Easement — PDE
- New Permanent Drainage / Utility Easement — DUE
- New Permanent Utility Easement — PUE
- New Temporary Utility Easement — TUE
- New Aerial Utility Easement — AUE

ROADS AND RELATED FEATURES:

- Existing Edge of Pavement
- Existing Curb
- Proposed Slope Stakes Cut — C
- Proposed Slope Stakes Fill — F
- Proposed Curb Ramp — CR
- Existing Metal Guardrail
- Proposed Guardrail
- Existing Cable Guiderail
- Proposed Cable Guiderail
- Equality Symbol
- Pavement Removal

VEGETATION:

- Single Tree
- Single Shrub
- Hedge
- Woods Line
- Orchard
- Vineyard — Vineyard

EXISTING STRUCTURES:

MAJOR:

- Bridge, Tunnel or Box Culvert — CONC
- Bridge Wing Wall, Head Wall and End Wall — CONC WW

MINOR:

- Head and End Wall — CONC HW
- Pipe Culvert
- Footbridge
- Drainage Box: Catch Basin, DI or JB — CB
- Paved Ditch Gutter
- Storm Sewer Manhole — S
- Storm Sewer — S

UTILITIES:

POWER:

- Existing Power Pole
- Proposed Power Pole
- Existing Joint Use Pole
- Proposed Joint Use Pole
- Power Manhole — P
- Power Line Tower
- Power Transformer
- U/G Power Cable Hand Hole
- H-Frame Pole
- U/G Power Line LOS B (S.U.E.*) — P
- U/G Power Line LOS C (S.U.E.*) — P
- U/G Power Line LOS D (S.U.E.*) — P

TELEPHONE:

- Existing Telephone Pole
- Proposed Telephone Pole
- Telephone Manhole — T
- Telephone Pedestal — T
- Telephone Cell Tower
- U/G Telephone Cable Hand Hole — HH
- U/G Telephone Cable LOS B (S.U.E.*) — T
- U/G Telephone Cable LOS C (S.U.E.*) — T
- U/G Telephone Cable LOS D (S.U.E.*) — T
- U/G Telephone Conduit LOS B (S.U.E.*) — TC
- U/G Telephone Conduit LOS C (S.U.E.*) — TC
- U/G Telephone Conduit LOS D (S.U.E.*) — TC
- U/G Fiber Optics Cable LOS B (S.U.E.*) — T FO
- U/G Fiber Optics Cable LOS C (S.U.E.*) — T FO
- U/G Fiber Optics Cable LOS D (S.U.E.*) — T FO

WATER:

- Water Manhole — W
- Water Meter
- Water Valve
- Water Hydrant
- U/G Water Line LOS B (S.U.E*) — W
- U/G Water Line LOS C (S.U.E*) — W
- U/G Water Line LOS D (S.U.E*) — W
- Above Ground Water Line — A/G Water

TV:

- TV Pedestal — C
- TV Tower
- U/G TV Cable Hand Hole — HH
- U/G TV Cable LOS B (S.U.E.*) — TV
- U/G TV Cable LOS C (S.U.E.*) — TV
- U/G TV Cable LOS D (S.U.E.*) — TV
- U/G Fiber Optic Cable LOS B (S.U.E.*) — TV FO
- U/G Fiber Optic Cable LOS C (S.U.E.*) — TV FO
- U/G Fiber Optic Cable LOS D (S.U.E.*) — TV FO

GAS:

- Gas Valve
- Gas Meter
- U/G Gas Line LOS B (S.U.E.*) — G
- U/G Gas Line LOS C (S.U.E.*) — G
- U/G Gas Line LOS D (S.U.E.*) — G
- Above Ground Gas Line — A/G Gas

SANITARY SEWER:

- Sanitary Sewer Manhole
- Sanitary Sewer Cleanout
- U/G Sanitary Sewer Line — SS
- Above Ground Sanitary Sewer — A/G Sanitary Sewer
- SS Forced Main Line LOS B (S.U.E.*) — FSS
- SS Forced Main Line LOS C (S.U.E.*) — FSS
- SS Forced Main Line LOS D (S.U.E.*) — FSS

MISCELLANEOUS:

- Utility Pole
- Utility Pole with Base
- Utility Located Object
- Utility Traffic Signal Box — S
- Utility Unknown U/G Line LOS B (S.U.E.*) — ?UTL
- U/G Tank; Water, Gas, Oil
- Underground Storage Tank, Approx. Loc. — UST
- A/G Tank; Water, Gas, Oil
- Geoenvironmental Boring
- U/G Test Hole LOS A (S.U.E.*)
- Abandoned According to Utility Records — AATUR
- End of Information — E.O.I.

GENERAL NOTES:
- -PLACE CONTRACTION JOINTS AT 10′ INTERVALS, EXCEPT THAT A 15′ SPACING MAY BE USED WHEN A MACHINE IS USED OR WHEN SATISFACTORY SUPPORT FOR THE FACE FORM CAN BE OBTAINED WITHOUT THE USE OF TEMPLATES AT 10′ INTERVALS.
- -JOINT SPACING MAY BE ALTERED IF REQUIRED BY THE ENGINEER.
- -CONTRACTION JOINTS MAY BE INSTALLED WITH THE USE OF TEMPLATES OR FORMED BY OTHER APPROVED METHODS. MAKE NON-TEMPLATE FORMED JOINTS A MIN. OF 1½″ DEEP.
- -FILL ALL CONSTRUCTION JOINTS WITH JOINT FILLER AND SEALER.
- -SPACE EXPANSION JOINTS AT 90′ INTERVALS AND ADJACENT TO ALL RIGID OBJECTS.
- -SEE RDWY. STD. DWG. NO. 846.01, SHEET 2 OF 3 FOR PLACEMENT IN SUPERELEVATIONS. (USE 2′-6″ CURB AND GUTTER RATES)
