

STATE OF NORTH CAROLINA  
DEPARTMENT OF TRANSPORTATION

MICHAEL F. EASLEY  
GOVERNOR

LYNDO TIPPETT  
SECRETARY

October 21, 2005

U.S. Army Corps of Engineers  
Raleigh Field Office  
6508 Falls of the Neuse Road, Suite 120  
Raleigh, NC 27615

Attention: Mr. John Thomas  
NCDOT Coordinator, Division 9

Subject: **Additional Information for Permit Modification and Section 401 Water Quality Certification Modification** for I-85 Improvements from North of SR 1002 to North of SR 2120 near the Town of Spencer in Rowan County, State Project No. 8.0631503, Federal Aid Project No. IR-IM-85-3(132)74, TIP No. I-2511CB.

Reference: - USACE Section 404 Individual Permit, Action ID No. 200221534, dated April 20, 2004 (modified January 7, 2005 and September 20, 2005)  
  
- NCDENR-DWQ Section 401 Water Quality Certification No. 3456, WQC Project No. 040271, issued April 20, 2004 (modified January 7, 2005, February 9, 2005 and October 6, 2005)

The North Carolina Department of Transportation (NCDOT) submitted an application for a Section 404 Permit Modification and Section 401 Water Quality Certification Modification, dated August 9, 2005, for the referenced project. The US Army Corp of Engineers has issued the Section 404 Permit Modification dated September 20, 2005, and the Division of Water Quality has issued the Section 401 Water Quality Certification Modification dated October 6, 2005.

A Sheet 13 of 34, that depicts a cross-sectional view of a structure previously considered for Site 5, was inadvertently included in the set of permit drawings 'with contours' that was submitted with NCDOT's permit modification application dated August 9, 2005. Attached is Sheet 13 of 35 that depicts the cross-sectional view of the actual structure that will be constructed at Site 5. Please replace Sheet 13 of 34 that was submitted with the permit modification application with the attached Sheet 13 of 35. Please note that a correct Sheet 13 of 35 was included in the set of permit drawings 'without contours' that was submitted with the August 9, 2005 permit modification application.

**The inclusion of the correct cross-sectional view drawing for the structure at Site 5 does not change any of the jurisdictional impacts at the site.** As such, the information contained in this letter, along with the attached permit drawing (Sheet 15 of 35 w/ contours) have been provided as additional
