If you have any questions regarding this determination and/or the Corps regulatory program, please contact Ronnie Smith at 910-251-4829.

C. Basis For Determination

The site exhibits wetland criteria as defined in the 1987 Corps Wetland Delineation Manual and appropriate regional supplement and is adjacent to Big Branch, a tributary to Monie Swamp, a tributary to Grissett Swamp, a tributary to Seven Creeks, a tributary to the Waccamaw River, which is a navigable water of the United States. The water body exhibits an ordinary high water mark as indicated by the absence of vegetation and leaf litter in the stream channel and the presence of bed and banks, wrack lines and sediment deposition. This determination is based on information provided by Arcadis.
