Project Description: Replace Bridge 11 over Jordan's Creek on SR 1324, Bostic Rd.

SUMMARY OF CULTURAL RESOURCES REVIEW*Brief description of review activities, results of review, and conclusions:*

Review of HPO quad maps was undertaken on 6/28/2012. Based on this review, there are no existing NR properties in the Area of Potential Effects. No archaeological sites were recorded within the vicinity of the proposed project.

Brief Explanation of why the available information provides a reliable basis for reasonably predicting that there are no unidentified historic properties in the APE: The proposed project calls for replacing the current bridge within its' existing location. There will be no impact beyond the existing Right of Way. Road and bridge have previously been cleared three separate times by the Office of State Archaeology for water system projects. No further work is warranted for this project.

SUPPORT DOCUMENTATION

See attached: Map(s);

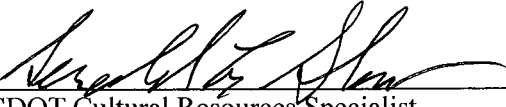

Road and bridge cleared as part of state game land assessment in 1997 [ER 97-8793]
