SUMMARY OF CULTURAL RESOURCES REVIEW*Brief description of review activities, results of review, and conclusions:*

Review of HPO quad maps, relevant background reports, historic designations roster, and indexes was undertaken on June 27, 2012. Based on this review, there were no existing NR, SL, LD, DE, or SS properties in the Area of Potential Effects (APE). There are no structures over 50 years of age in the APE of this project.

Brief Explanation of why the available information provides a reliable basis for reasonably predicting that there are no unidentified historic properties in the APE:

Using HPO GIS website and the Montgomery County GIS Tax Data website provides reliable information regarding the structures in the APE. These combined utilities are considered valid for the purposes of determining the likelihood of historic resources being present.
