HISTORIC ARCHITECTURE AND LANDSCAPES NO SURVEY REQUIRED FORM

This form only pertains to Historic Architecture and Landscapes for this project. It is not valid for Archaeological Resources. You must consult separately with the Archaeology Group.

PROJECT INFORMATION

Project No:		County:	Yadkin
WBS No.:	17BP.11.R.91	Document Type:	
Fed. Aid No:		Funding:	X State Federal
Federal Permit(s):	X Yes No	Permit Type(s):	NWP 3 or NWP 14
Project Description: Replace Bridge No. 91 on SR 1599 (Mt. Carmel Church Road) over Forbush Creek (off-site detour planned).			

SUMMARY OF HISTORIC ARCHITECTURE AND LANDSCAPES REVIEW

Description of review activities, results, and conclusions: HPOWeb reviewed on 9 October 2013 and yielded no NR, SL, LD, DE, or SS properties in the Area of Potential Effects (APE). Yadkin County current GIS mapping, aerial photography, and tax information indicated an APE of woodland and cultivated fields containing one early-twenty-first-century resource (viewed 9 October 2013). A previously surveyed Farm (YD 317) is intersected by the APE, but its component resources stand approximately 725 feet southwest of the existing bridge and screened from it by trees, well beyond likely project impact. Originally constructed in 1960 and partially rebuilt in 1987, Bridge No. 91 is a 41-foot-long, single-span, steel, stringer/multi-beam bridge and is not eligible for the National Register according to the NCDOT Historic Bridge Survey as it is not historically, architecturally, or technologically significant. Google Maps "Street View" confirmed the absence of critical historic structures and landscapes in the APE (viewed 9 October 2013).

No architectural survey is required for the project as currently defined.

Why the available information provides a reliable basis for reasonably predicting that there are no unidentified significant historic architectural or landscape resources in the project area: APE extends 300 feet from either end of the existing bridge (N-S) and 100 feet to either side of the SR 1599 (Mt. Carmel Church Road) centerline (W-E) to encompass proposed construction activities. The comprehensive county architectural survey (1985) and related publication record no properties in the APE (Lewis Brumfield, ed. *Historical Architecture of Yadkin County, North Carolina* (Yadkinville, NC: Yadkin County Historical Society, 1987), p. 142). County GIS/tax materials and other visuals support the absence of significant architectural resources. No National Register-listed properties are located within the APE.

Should the design of the project change please notify NCDOT Historic Architecture as additional review may be necessary.
