HISTORIC ARCHITECTURE AND LANDSCAPES NO SURVEY REQUIRED FORM

This form only pertains to Historic Architecture and Landscapes for this project. It is not valid for Archaeological Resources. You must consult separately with the Archaeology Group.

PROJECT INFORMATION

Project No:		County:	Rutherford
WBS No.:	17BP.13.R.112	Document Type:	
Fed. Aid No:		Funding:	X State Federal
Federal Permit(s):	X Yes ☐ No	Permit Type(s):	NWP 3, NWP 14, and TVA
Project Description: Replace Bridge No. 94 on SR 1755 (John Stroud Road) over Hinton Creek (off-site detour planned).			

SUMMARY OF HISTORIC ARCHITECTURE AND LANDSCAPES REVIEW

Description of review activities, results, and conclusions: HPOWeb reviewed on 11 September 2013 and yielded no NR, SL, LD, DE, or SS properties in the Area of Potential Effects (APE). Rutherford County current GIS mapping, aerial photography, and tax information indicated a mostly wooded APE intersecting several large properties containing resources dating to the first half of the twentieth century (viewed 11 September 2013). Resources are located approximately 420 feet northwest, 625 feet southeast, and 1400 southeast of the existing bridge, well beyond likely project impact. Constructed in 1958, Bridge No. 94 is a 41-foot-long, single-span, steel, stringer/multi-beam bridge and is not eligible for the National Register according to the NCDOT Historic Bridge Survey as it is not historically, architecturally, or technologically significant. Google Maps "Street View" confirmed the absence of critical historic structures and landscapes in the APE (viewed 11 September 2013).

No architectural survey is required for the project as currently defined.

Why the available information provides a reliable basis for reasonably predicting that there are no unidentified significant historic architectural or landscape resources in the project area: APE extends 350 feet from either end of the existing bridge (E-W) and 100 feet to either side of the SR 1755 (John Stroud Road) centerline (N-S) to encompass proposed construction activities. The comprehensive county architectural survey (1979) and related publication, as well as later additions, include no properties in the APE (Kim Merkel, *The Historic Architecture of Rutherford County* (Rutherfordton, NC: Rutherford County Arts Council, 1983)). County GIS/tax materials and other visuals support the absence of significant architectural and landscape resources in the APE. No National Register-listed properties are located within the APE, including the Federal permit area.

Should any design elements, including detour improvements, of the project change, please notify NCDOT Historic Architecture as additional review may be necessary.
