HISTORIC ARCHITECTURE AND LANDSCAPES NO SURVEY REQUIRED FORM

This form only pertains to Historic Architecture and Landscapes for this project. It is not valid for Archaeological Resources. You must consult separately with the Archaeology Group.

PROJECT INFORMATION

Project No:		County:	Cumberland
WBS No.:	DF15006.2026041	Document Type:	
Fed. Aid No:		Funding:	State ☒ Federal
Federal Permit(s):	☒ Yes ☐ No	Permit Type(s):	NWP 3
Project Description: Replace washed-out aluminum arch culvert on SR 1141 (Bingham Drive) at Arran Lake over Beaver Creek Tributary A with proposed 95-foot bridge (no off-site detour specified in review request). FEMA emergency replacement project.			

SUMMARY OF HISTORIC ARCHITECTURE AND LANDSCAPES REVIEW

DESCRIPTION OF REVIEW ACTIVITIES, RESULTS, AND CONCLUSIONS: HPOWeb reviewed on 6 January 2017 and yielded no NR, SL, LD, DE, or SS properties in the Area of Potential Effects (APE). Cumberland County current GIS mapping, aerial photography, and tax information indicated a partly wooded APE with several resources dating to the late-twentieth and early-twenty-first centuries (viewed 6 January 2017). A circa-1964 house, an unexceptional example of its type, stands just outside the APE to the NE of the project area. Google Maps "Street View" confirmed the absence of significant historic architectural and landscape resources in APE (6 January 2017).

No architectural survey is required for the project as currently defined.

WHY THE AVAILABLE INFORMATION PROVIDES A RELIABLE BASIS FOR REASONABLY PREDICTING THAT THERE ARE NO UNIDENTIFIED SIGNIFICANT HISTORIC ARCHITECTURAL OR LANDSCAPE RESOURCES IN THE PROJECT AREA: APE extends 400 feet to the N and S of the culvert location and 150 feet to the E and W of the existing SR 1141 (Bingham Drive) center line to encompass proposed construction activities. Comprehensive architectural surveys of the county (1970s) and later additions record no properties in the APE. County GIS/tax materials and other visuals support the absence of significant architectural and landscape resources. No National Register-listed properties are located within the APE.

**Should the design of the project change, please notify
NCDOT Historic Architecture as additional review may be necessary.**
