<u>Project Description:</u> Replace Bridge No. 309 over Mulberry Creek on SR 1338 (Valley View Circle).			

SUMMARY OF HISTORIC ARCHITECTURE AND LANDSCAPES REVIEW

<u>Description of review activities, results, and conclusions:</u> Review of HPO quad maps, HPO GIS information, historic designations roster, and indexes was undertaken on October 27, 2016. Based on this review, there are no existing NR, SL, LD, DE, or SS properties in the Area of Potential Effects, which is 300' from each end of the bridge and 75' from the centerline each way. There are no structures within the APE, and no structures over fifty years of age within the vicinity of the bridge. Bridge NO. 309, built 1965, is not eligible for NR listing. There are no National Register listed or eligible properties and no survey is required. If design plans change, additional review will be required. <u>Why the available information provides a reliable basis for reasonably predicting that there are no unidentified significant historic architectural or landscape resources in the project area:</u> HPO quad maps and GIS information recording NR, SL, LD, DE, and SS properties for the Caldwell County survey, Caldwell County GIS/Tax information, and Google Maps are considered valid for the purposes of determining the likelihood of historic resources being present. There are no National Register listed or eligible properties within the APE and no survey is required.
