**Re: Summary Letter for Soil Removal and Disposal
Parcel 61, Cooper & Brown Incorporated Property
3701 US Highway 1
Hoffman, Richmond County, North Carolina, 28347
WBS Element: 34438.1.1
NCDOT Project: R-2502A
Solutions-IES Project No: 6000.08A2.NDOT**

Dear Mr. Parker,

This letter was prepared to summarize soil removal and disposal activities conducted at NCDOT Parcel 61 (site) referenced above. This scope of work was initiated based on a Notice to Proceed issued by the NCDOT Geotechnical Engineering Unit dated February 22, 2008 under contract 7000008011, dated May 31, 2007.

On March 11, 2008, Solutions-IES, Inc. mobilized to the site located at 3701 US Highway 1 in Hoffman, North Carolina to supervise the removal of approximately 50 cubic yards (estimated at 63 tons) of soil. This soil was produced during a well abandonment performed by others on Parcel 61 (Facility ID 0-019340) prior to current site work. The soil was stored slightly north of Highway 1 on a concrete pad. Soil Solutions, Inc. of Winston-Salem, North Carolina was contracted by Solutions-IES to remove and dispose of the petroleum impacted soil. A portion of the soil was loaded on the first truck beginning at 1:10pm on March 11, 2008, and loading continued until the final truck was loaded at 6:00pm on the same date. A total of approximately 43 tons of petroleum impacted soil were removed from the site for disposal at Earthtec of NC, Inc. located in Bear Creek, North Carolina. A site location map, a site map, photographs of site work, the Certificate of Disposal, and waste manifests are provided in an attachment to this letter.

We thank you for your continued interest in our professional geoenvironmental services. If there are any questions concerning this project, please contact us at (919) 873-1060.

Yours truly,

Solutions-IES, Inc.
