TEMPORARY TRAFFIC SIGNAL SYSTEM ALTERNATES:

(11-29-07)

Description

The Contractor may use either a temporary portable traffic signal system or a temporary stationary traffic signal system for traffic maintenance during construction of proposed structure No.33 and approaches on Meat Camp Rd. (SR 1335). The temporary portable traffic signal will require a system that is coordinated to maintain safe and efficient traffic operations during project construction. Only temporary portable or stationary traffic signal systems will be allowed.
