MEMORANDUM TO: Kevin Moore, PE
Senior Project Engineer
Project Management Unit

FROM: Craig Haden 
GeoEnvironmental Project Manager
GeoEnvironmental Section
Geotechnical Engineering Unit

TIP NO: I-2513AA/AB
WBS: 34165.1.11/34165.1.12
COUNTY: BUNCOMBE
DIVISION: 13
DESCRIPTION: I-40 from East of SR 1224 (Monte Vista Rd) to Pavement joint west of SR 3412 (Sand Hill Rd). I-26 from Pond Road Bridge to I-26/I-240 Interchange. Includes Initial Improvements at I-40EB to I-26EB Ramp and US 19/23 (Smokey Park Highway).

SUBJECT: **GeoEnvironmental Phase I**

The GeoEnvironmental Section of the Geotechnical Engineering Unit reviewed the FDFI plans dated August 9, 2022, for the above referenced project to identify geoenvironmental sites of concern. The purpose of this report is to document sites of concern within the project study area that are or may be contaminated. These sites of concern should be included in the environmental planning document in an effort to assist the project stakeholders in reducing or avoiding impacts to these sites. Sites of concern may include, but are not limited to, underground storage tank (UST) sites, dry cleaning facilities, hazardous waste sites, regulated landfills and unregulated dumpsites.

Findings

The GeoEnvironmental Section provided pre-scoping comments in 2014 for the I 2513 study area. Seven sites of concern are within the I-2513AA/AB section; **None of the those sites are impacted by the current design.** If the current design changes, please notify the Geoenvironmental Section for further review.

Please note that discovery of sites not recorded by regulatory agencies and not reasonably discernible during the project reconnaissance may occur. The GeoEnvironmental Section should be notified immediately after discovery of such sites so their potential impact(s) may be assessed.
