Corrective Action

Prime Global Solutions Diesel Spill
I-77 South, Mile Marker 83
Elkin, Surry County
Incident Number: 95840
Ranking: L0R

Dear Mr. Katyal:

The Initial Abatement Report received by the UST Section, Division of Waste Management, Winston-Salem Regional Office on October 5, 2020 has been reviewed. A review of the report indicates that soil contamination, after cleanup activities, does not equal or exceed the TPH action level.

Based on information provided to date, the UST Section determines that no further action is warranted for this incident. This determination shall apply unless the UST Section later finds that the discharge or release poses an unacceptable risk or a potentially unacceptable risk to human health or the environment.

This No Further Action determination applies only to the subject incident; for any other incidents at the subject site, the responsible party must continue to address contamination as required.

If you have any questions regarding this notice, please contact me at the address or telephone number listed below.

Sincerely,

Mindy Lepard
Hydrogeologist
Winston-Salem Regional Office
UST Section, Division of Waste Management, NCDEQ
