

# Move Forward List (Points), January 2023 - NC Department of Transportation

## File Geodatabase Feature Class

### Tags

Move Forward list, let, Project Move Forward Status, STIP, lines, points, EAU, Transportation, NCDOT, Environment, Location, North Carolina, ATLAS, North Carolina

### Summary

This dataset was originally created in November 2021 and updated in January 2023 as part of the Project ATLAS initiative at NCDOT to support the EAU with project delivery in the development phase.

The Move Forward List points layer was created to be used by the EAU and other project delivery stakeholders to make available specific data related to Project Move Forward status for the purpose of updating a new GIS layer, based on the STIP that will reflect the Move Forward Status of a project. Move forward status is the status for a project that is scheduled to be let.

The STIP layer depicts NCDOT's Transportation Improvement Program (STIP) Projects.  
Web Services for STIP -

<https://ncdot.maps.arcgis.com/apps/mapviewer/index.html?webmap=cb02f4f828974670ad01bb83be91b18c>

### Description

The Move Forward List points layer is a statewide point layer depicting STIP project points with their Move Forward Status. Move forward status is the status for a project that is scheduled to be let and are of the following types: PE, Utilities and ROW.

Datasets developed under Project ATLAS do not replace any field work for future projects and may not be used as a replacement for site visits / field surveys by licensed professionals and hence should be used only as a supporting platform for decision making. Use of this dataset for project scoping or screening is merely pre-decisional.

### Credits

The EAU within NCDOT was tasked to create this dataset. The STIP Unit of NCDOT is responsible for the development of the STIP layer.

### Use limitations

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

Datasets developed under Project ATLAS do not replace any field work for future projects and may not be used as a replacement for site visits / field surveys by licensed professionals and hence should be used only as a supporting platform for decision making. Use of this dataset for project scoping or screening is merely pre-decisional.

## Lineage ▶

LINEAGE STATEMENT

This dataset was developed by importing the STIP points layer.

Source for STIP layer:

[https://gis11.services.ncdot.gov/arcgis/rest/services/NCDOT\\_STIP/MapServer/1](https://gis11.services.ncdot.gov/arcgis/rest/services/NCDOT_STIP/MapServer/1)

PROCESS STEP ▶

DESCRIPTION

Once the STIP point layer is imported, a script assigns a Move Forward Status from SAP and is written in to the MFwdStat field in this layer.

## Metadata Constraints ►

### SECURITY CONSTRAINTS

CLASSIFICATION unclassified

CLASSIFICATION SYSTEM None

### LIMITATIONS OF USE

The North Carolina Department of Transportation shall not be held liable for any errors in this metadata. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data. Datasets developed under Project ATLAS do not replace any field work for future projects and may not be used as a replacement for site visits / field surveys by licensed professionals and hence should be used only as a supporting platform for decision making. Use of this dataset for project scoping or screening is merely pre-decisional.
