Summary

This dataset was originally created in January 2019 as part of the Project ATLAS initiative at NCDOT to support the Environment Analysis Unit (EAU) with project delivery in the development phase.

This dataset represents K-12 schools across the State of North Carolina. Tabular data was compiled from North Carolina Department of Public Instruction and Office of Non-Public Education under the Department of Administration. The tabular data was geocoded utilizing ESRI's ArcGIS toolsets.

Description

The NC K-12 schools dataset is a statewide point layer for locations of K-12 schools across the state of NC. Tabular data was compiled from North Carolina Department of Public Instruction and Office of Non-Public Education under the Department of Administration in July 2018. The tabular data was geocoded utilizing ESRI's ArcGIS toolsets to create this Project ATLAS dataset.

Datasets developed under Project ATLAS may not be used as a replacement for site visits / field surveys by licensed professionals and hence should be used only as a supporting platform for decision making. Use of this dataset for project scoping or screening is merely pre-decisional.

Credits

The ATLAS EAU within NCDOT was tasked to create this dataset.

Support and maintenance of the enterprise spatial database where this data resides is handled by NCDIT's Transportation GIS Unit.

Use limitations

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

Datasets developed under Project ATLAS may not be used as a replacement for site visits / field surveys by licensed professionals and hence should be used only as a supporting platform for decision making. Use of this dataset for project scoping or screening is merely pre-decisional.

Lineage ▶

LINEAGE STATEMENT
Data was obtained from the State Office of Public Instruction in tabular format.
(<http://apps.schools.nc.gov/ords/f?p=125:1:::NO0>)
It was then geocoded into point files and aggregated into a single file.

The resulting dataset contains 3439 records.
