

# NC Medical Facilities, August 2019 - NC Department of Transportation

## File Geodatabase Feature Class

### Tags

Medical, Mental Health, Nursing Home, Family Living, Assisted Living Facility, Medical Facility, Transportation, NCDOT, Environment, Location, North Carolina, ATLAS

### Summary

This dataset was originally created in January 2019 as part of the Project ATLAS initiative at NCDOT to support the Environment Analysis Unit (EAU) with project delivery in the development phase.

This dataset represents point data depicting the approximate spatial locations of medical facilities in North Carolina as of July 2018. Data maintained by the North Carolina Division of Health Service Regulation (NCDHSR) was compiled into a master list and geocoded to create a spatial dataset of the approximate locations for each listed facility.

### Description

The Medical Facilities dataset is a point layer in a statewide GIS dataset for depicting various types of medical facilities identified during project development for NCDOT.

Datasets developed under Project ATLAS may not be used as a replacement for site visits / field surveys by licensed professionals and hence should be used only as a supporting platform for decision making. Use of this dataset for project scoping or screening is merely pre-decisional.

### Credits

The ATLAS EAU within NCDOT was tasked to create this dataset.

Support and maintenance of the enterprise spatial database where this data resides is handled by NCDIT's Transportation GIS Unit.

### Use limitations

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

Datasets developed under Project ATLAS may not be used as a replacement for site visits / field surveys by licensed professionals and hence should be used only as a supporting platform for decision making. Use of this dataset for project scoping or screening is merely pre-decisional.

### Extent

## Lineage ►

LINEAGE STATEMENT

Data maintained by the North Carolina Division of Health Service Regulation (NCDHSR) was compiled into a master list.

The master list was then geocoded to create a spatial dataset of the approximate locations for each listed facility.

PROCESS STEP ►

DESCRIPTION

This Master facilities data was downloaded from <https://www2.ncdhhs.gov/dhsr/reports.htm> in tabular format (csv). The data was then georeferenced based on lat/lon information. Data was extracted/compiled using Microsoft Excel and ESRI ArcMap.

**CONSTRAINTS**

LIMITATIONS OF USE

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

Datasets developed under Project ATLAS may not be used as a replacement for site visits / field surveys by licensed professionals and hence should be used only as a supporting platform for decision making. Use of this dataset for project scoping or screening is merely pre-decisional.
