Counties, Nationwide Permitting, Pre-Construction Notification Form, PCN, Western NC Counties that Drain to Designated Critical Habitat, US Army Corps of Engineers, US Fish and Wildlife Service, Critical Habitat, Northern Long-eared Bat, NLEB, CAMA, Coastal Area Management Act, Barrier Island, LiDAR, Aerial Photography, Collection Phase, Transportation, NCDOT, Environment, Location, North Carolina, ATLAS

Summary

This dataset was originally created in January 2019 as part of the Project ATLAS initiative at NCDOT to support the Sweeping Environmental Group with project delivery in the development phase.

This data is designed to facilitate the production of Reports specifically the Natural Resource Technical Report (NRTR) creation, Programmatic Categorical Exclusion (PCE) generation, and all permitting work flows, including Pre-Construction Notification (PCN) form generation.

Description

The Sweeping County Additions table contains attributes that are envisioned to be added to the county boundary layer. It is a list of presence / absence for Western NC streams that drain to designated Critical Habitat, NLEB presence, Coastal Area Management Act, Barrier Islands, and LiDAR phases for counties. All Counties were identified through appropriate lists (such as Nationwide Permitting Conditions) and compiled into a single table indicating the appropriate counties included within the various categories. No geometry data was generated.

Datasets developed under Project ATLAS do not replace any Sweeping Environmental field work for future projects and may not be used as a replacement for site visits / field surveys by licensed professionals and hence should be used only as a supporting platform for decision making. Use of this dataset for project scoping or screening is merely pre-decisional.

Credits

The ATLAS Sweeping Environmental Group within NCDOT was tasked to create this dataset.

Annual maintenance of this dataset is handled by the Sweeping Environmental Group. Support and maintenance of the enterprise spatial database where this data resides is handled by NCDIT's Transportation GIS Unit.

Use limitations

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

Datasets developed under Project ATLAS do not replace any Sweeping Environmental field work for future projects and may not be used as a replacement for site visits / field surveys by licensed professionals and hence should be used only as a supporting platform for decision making. Use of this dataset for project scoping or screening is merely pre-decisional.
