Summary

To provide Metropolitan Planning Organization (MPO) and Rural Planning Organization (RPO) boundaries for the state of North Carolina in a GIS data format.

Description

Polygons depicting the various MPO and RPO boundaries, covering the entire state of North Carolina. These planning area boundaries, called Metropolitan Planning Areas (MPAs) for MPOs or planning area boundaries for RPOs, represent the geographic areas likely to become urbanized within 20 years. They are the areas that MPOs and RPOs are responsible for conducting long range transportation planning.

Lineage ▶

LINEAGE STATEMENT

This dataset was originally created by the North Carolina Department of Transportation to provide a geographic representation of the Metropolitan Planning Organization (MPO) and Rural Planning Organization (RPO) in North Carolina. MPO boundaries are created from 2010 Census data. RPO boundaries are the non-MPO group of counties. The data were then used by the NC Department of Transportation GIS Unit for further data processing. The final product was utilized by the NC Transportation Planning Division.

PROCESS STEP ▶

WHEN THE PROCESS OCCURRED **2024-03-21 00:00:00**

DESCRIPTION

The North Carolina Department of Transportation created the polygons depicting the various MPO and RPO boundaries, covering the entire state of North Carolina. Existing MPOs expanded their Metropolitan Planning Areas (MPAs) to include all territory in Census 2010 UZAs (Urbanized Areas). All boundary adjustments are approved by the Governor(s) and submitted to the FHWA Division Office(s). The MPA boundaries include the entire UZA boundary identified in the 2010 decennial Census and the contiguous geographic area likely to become urbanized within 20 years. RPOs were created for transportation planning in rural North Carolina areas not within an MPO.
