

SDV_PUBLIC.SCHOOL_PRIVATE_POINT

Data format: SDE Feature Class

File or table name: SDV_PUBLIC.SCHOOL_PRIVATE_POINT

Coordinate system: Lambert Conformal Conic

Theme keywords: Non-Public, Schools, structure

Abstract: NC Center for Geographic Information and Analysis developed the digital Non-Public Schools data from addresses provided by the NC Department of Administration, Division of Non-Public Education on 5/07/03. This file enables users to identify non-public school locations. This data covers the entire extent of North Carolina.

Description:

Abstract:

NC Center for Geographic Information and Analysis developed the digital Non-Public Schools data from addresses provided by the NC Department of Administration, Division of Non-Public Education on 5/07/03. This file enables users to identify non-public school locations. This data covers the entire extent of North Carolina.

Purpose:

This data was created to assist governmental agencies and others in making resource management decisions through use of a Geographic Information System (GIS).

Supplemental information:

Revisions and updates to this layer include:

4)Regular update. December 28, 2007. Website:

<http://www.ncdnpe.org/hhh119i.pdf>.

3)Regular update. December 15, 2006. Website:

<http://www.ncdnpe.org/hhh119h.htm>.

2)The 06/18/04 update:

Previous data was compared to schools posted in Adobe Acrobat Reader files on the following website: <http://www.doa.state.nc.us/dnpe/hhh118f.htm>.

Schools were added or deleted as necessary, and other pertinent data (administrator, phone number, grades, enrollment, staff, etc) updated as needed.

1)The 05/21/03 version was the first version of this data.

***Language of dataset:** en

Time period of content:

Time period information:

Single date/time:

Calendar date: REQUIRED: The year (and optionally month, or month and day) for which the data set corresponds to the ground.

Range of dates/times:

Beginning date: 20030507

Ending date: 20071228

Currentness reference:

Data creation and revision dates

Status:

Progress: Complete

Maintenance and update frequency: As needed

[Back to Top](#)

Data Quality Information:

Attribute accuracy:

Attribute accuracy report:

Point locations were generated using geocoding in Arcview from the non-public schools address list provided by the Division of Non-Public Education. Points that could not be generated using geocoding were interactively added in arcedit using mapquest.com and/or the directions to each school posted on the Division of Non-Public Education website. This digital file is updated as changes occur.

Logical consistency report:

Using ESRI's ARC/INFO GIS software, the dataset was built for point topology using the "build" command. Topology has not been edited since the last build or clean.

Completeness report:

These data represent the locations of Non-Public Schools in North Carolina as listed by the NC Department of Administration, Division of Non-Public Education. The locations were either address-matched using ArcView geocoding or matched manually using mapquest.com and/or the directions to each school posted on the www.doa.state.nc.us/dnpe/hhh700.htm website.

Positional accuracy:

Horizontal positional accuracy:

Horizontal positional accuracy report:

The majority of Non-Public Schools were generated using geocoding in Arcview. The point generated in the processing would be snapped to the road identified in the address field. Therefore, point locations are coincident with the GDT roads data.

Distribution liability:

NCCGIA is charged with the development and maintenance of NC OneMap and, in cooperation with other mapping organizations, is committed to offering its users accurate, useful, and current information. Although every effort has been made to ensure the accuracy of information, errors and conditions originating from physical sources used to develop this dataset may be reflected in the data supplied. The user must be aware of possible conditions and bear responsibility for the appropriate use of the information with respect to possible errors, original map scale, collection methodology, currency of data, and other conditions specific to certain data. NCCGIA does not support secondary distribution of this dataset without its current, compliant metadata record. The use of trade names or commercial products does not constitute their endorsement by NCCGIA or North Carolina State Government.
