

Bike/Pedestrians Locations of Interest – Points, North Carolina Department of Transportation, Prioritization 7.0, July, 2023

File Geodatabase Feature Class

Tags

Location of Interest (LOI), Transportation, Bicycle, Pedestrian, North Carolina, North Carolina Department of Transportation (NCDOT), Prioritization 7.0 (P7), Point, ITRE, Strategic Prioritization Office of Transportation (SPOT)

Summary

This layer includes a set of point features within four categories of interest that were determined to be attractive bike and pedestrian destinations throughout the state of North Carolina. The layer is intended to be used for the SPOT 7.0 scoring process for the 2023 update to the State Transportation Improvement Plan (STIP).

Description

This layer is a point feature class that represents locations in North Carolina that were determined to be attractive bike and pedestrian destinations. The composite selection of features, used for the Strategic Prioritization Office of Transportation (SPOT) 7.0 scoring process, are categorized by type and were generated from these component data sources:

Component	Category	Source
Government Centers	Government Building	VHB; 2019
Medical Facilities	Medical Centers	NCDOT; 2019
Places of Worship	Place of Worship	NCDOT; 2019
Schools K-12	School	NCDOT; 2019
Sports Venues	Tourist Destination	VHB; 2019

Source composite datasets are the most up to date versions available but are not guaranteed to include all features of each category type in the State of North Carolina.

Data for each category is limited to the following parameters:

Government Centers

This layer contains three types of government properties:

- City/Town Halls
- County Courthouses
- Federal District Courts and Offices

Naming schema:

- City/Town Halls are titled the name of the municipality (ex: Durham)
- County Courthouses use the title of the county followed by County (ex: Durham County)

Federal District Courts and Offices use the full name of the facility

Medical Centers

This layer includes a wide selection of facilities that are medical in nature. This includes but is not limited to the following types of facilities:

- Hospitals
- General Practice Clinics/Urgent Care
- Specialty Care Clinics
- Mental Health Clinics
- Physical Rehabilitation Centers
- Drug and Alcohol Treatment and Rehabilitation Centers
- Hospice Care
- Nursing Homes and Adult Assisted Living Care
- Group Homes
- Retirement Communities
- Alternative Medicine Practices
- Religious Organizations Offering Various Services

Places of Worship

This layer includes worship centers of varying faiths. Worship centers may not be located in an institutional land use setting (church, temple etc.) but may be located on private residential sites. An attempt has been made to filter out any locations that are not truly worship centers in nature, but this layer may contain small number of locations that are better defined as private religious schools, preschools, or day care centers.

Schools

This layer includes public and private schools and learning centers from preschool to grade 12.

Sports Venues

This layer includes athletic and racing spectator sport venues. Venues included generally hold a capacity of greater than 2,000 and do not include the homes of college/university athletic teams unless located off campus such as World War Memorial Stadium in Greensboro.

For further information about domains and fields used in SPOT see the SPOT P7 Domains document here:

Use limitations

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

SPOT On!ine is the NC Department of Transportation's online project prioritization evaluation system. All data used for scoring and evaluating projects, including scores and preliminary point-in-time cost estimates either generated by the SPOT On!ine application or provided by the user, are only intended for use in the Department's Strategic Prioritization Process. All SPOT On!ine project data will be used for preliminary level planning, scoring, and evaluation purposes only, and must undergo further review prior to use in the Department's programming process. By entering SPOT On!ine, the user hereby acknowledges this statement.

DESCRIPTION

The Bike/Pedestrian Locations of Interest- Points were created to locate local transit routes for the interest of bicycle and pedestrian users. This layer is intended to be used in the prioritization 7.0 for the updated 2019 State Transportation Improvement Plan (STIP).

[Hide Scope of quality information ▲](#)

DATA QUALITY REPORT - CONCEPTUAL CONSISTENCY ►

CONFORMANCE TEST RESULTS

- TEST PASSED Yes

RESULT EXPLANATION

The dataset is converted to file geodatabase (FGDB) format using tools in ArcGIS. Quality checks were performed by the Strategic Prioritization Office of Transportation (SPOT) and the North Carolina

Department of Transportation Geographic Information Systems Unit and errors were accepted as within business range or identified as exceptions.
