File Geodatabase Feature Class

## Tags

Location of Interest (LOI), Transportation, Bicycle, Pedestrian, North Carolina, North Carolina Department of Transportation (NCDOT), Prioritization 7.0 (P7), Polygon, Strategic Prioritization Office of Transportation (SPOT)

## Summary

This layer contains a set of polygon features in three categories representing locations determined to be attractive bike and pedestrian destinations of interest throughout the State of North Carolina. The layer is intended to be used for the Strategic Prioritization Office of Transportation (SPOT) 7.0 scoring process for the 2023 update to the State Transportation Improvement Plan (STIP).

## Description

This layer is a polygon feature class that represents boundaries for sites of interest in North Carolina that were determined to be attractive bike and pedestrian destinations. The composite selection of features, used for the Strategic Prioritization Office of Transportation (SPOT) 7.0 scoring process, are categorized by type and were generated from these component data sources:

Component	Category	Source
Colleges & Universities	University/College	VHB; 2019
Historic Sites	Tourist Destination	NC State Historic Preservation Office; 2019
Parks	Park	NC Natural Heritage Program; 2019 NC Dept. of Administration, State Property Office; 2019

Data for each category is limited to the following parameters:

- University and College sites consist of property parcels and, for larger universities, may be limited to parcels only on core areas of campus where academic and university housing facilities are located. Off-campus parcels owned by the college or university may be excluded from these sites. Historic sites represent historic districts and other historic site boundaries but may not capture all historic site locations in the State of North Carolina.

Historic sites includes local historic districts designated by the local ordinance in those municipalities and counties that have established historic preservation commissions under G.S. 160A-400.1-400.14. Boundaries of a few local landmarks are also included. Also included are historic districts designated under federal and state historic preservation programs and include the following: National Register of Historic Places (NR) listings, Study List (SL) entries for potential nomination to the National Register, and Determinations of Eligibility (DOE) under Section 106 of the National Historic Preservation Act of 1966.

- Parks include all federal and state park properties in the State of North Carolina as well as several municipal and country park properties; this category may not capture all municipal and county level parks.

For further information about domains and fields used in SPOT see the SPOT P7 Domains document here:

## Use limitations

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

SPOT On!ine is the NC Department of Transportation's online project prioritization evaluation system. All data used for scoring and evaluating projects, including scores and preliminary point-in-time cost estimates either generated by the SPOT On!ine application or provided by the user, are only intended for use in the Department's Strategic Prioritization Process. All SPOT On!ine project data will be used for preliminary level planning, scoring, and evaluation purposes only, and must undergo further review prior to use in the Department's programming process. By entering SPOT On!ine, the user hereby acknowledges this statement.

## Lineage ►

LINEAGE STATEMENT

This layer is a polygon feature class that represents boundaries for sites of interest in the North Carolina that were determined to be attractive bike and pedestrian destinations. The composite selection of features are categorized by type and were generated from these component data sources: Component Category Source Colleges & Universities University/College VHB; 2019 Historic Sites Tourist Destination NC State Historic Preservation Office; 2019 Parks Park NC Natural Heritage Program; 2019 NC Dept. of Administration, State Property Office; 2019. The data were further manipulated by the North Carolina Department of Transportation Geographic Information Systems Unit and/or the North Carolina Department of Transportation Strategic Prioritization Office of Transportation (SPOT) to produce the required data for Prioritization 7.0.

PROCESS STEP ►

WHEN THE PROCESS OCCURRED 2019-07-02 00:00:00

DESCRIPTION

The North Carolina Department of Transportation Geographic Information Systems Unit placed the data into ArcGIS 10.3 to process and the desired product for the Strategic Prioritization Office of Transportation (SPOT). This included organizing the polygon data into the desired categories.
