Summary

This is a point dataset depicting terminal entrance locations of terminals used for the "Freight [+Military] Highway" criteria for the NC Department of Transportation (NCDOT) Prioritization 7.0 (P7.0) process. This includes: Airports, Seaports, Freight Intermodal Terminals, Military Base, Rail Depot, Major Transit Terminals, and Ferry Terminals.

Description

This is a dataset of the freight terminals used for the Freight [+ Military] Highway criteria for the NC Department of Transportation (NCDOT) Prioritization 7.0 (P7.0) process. List of terminals is comprised of the following: public freight intermodal terminals as defined by NHS (truck/rail/pipeline), seaports, inland ports, Statewide Mobility airports with large movement of freight, major military bases, major ferry terminals (annual truck traffic greater than 10,000), and large private freight intermodal terminals (truck/rail). Dataset includes all terminals within North Carolina and within 20 miles outside the state border. Point locations depict entrance(s) to each terminal.

This layer was derived from the Federal Highway Administration (FHWA), National Highway System (NHS) Intermodal Connectors data set. Intermodal Connectors are defined by the FHWA NHS as highways that "provide access between major intermodal facilities and the other four subsystems making up the National Highway System.

For the purposes of the Strategic Planning Office of Transportation Prioritization 7.0 project, data is not updated after March, 2023 (P7).

For further information about domains and fields used in SPOT see the SPOT P7 Domains document here:

Use limitations

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

SPOT On!ine is the NC Department of Transportation's online project prioritization evaluation system. All data used for scoring and evaluating projects, including scores and preliminary point-in-time cost estimates either generated by the SPOT On!ine application or provided by the user, are only intended for use in the

Department's Strategic Prioritization Process. All SPOT On!ine project data will be used for preliminary level planning, scoring, and evaluation purposes only, and must undergo further review prior to use in the Department's programming process. By entering SPOT On!ine, the user hereby acknowledges this statement.

Lineage ►

LINEAGE STATEMENT

The data derived from the Federal Highway Administration (FHWA), National Highway System (NHS) Intermodal Connectors. The data were further manipulated by the North Carolina Department of Transportation Geographic Information Systems Unit and/or the North Carolina Department of Transportation Strategic Prioritization Office of Transportation (SPOT) to produce the required data for Prioritization 7.0.

PROCESS STEP ►

DESCRIPTION

This layer was derived from the Federal Highway Administration (FHWA), National Highway System (NHS) Intermodal Connectors. Intermodal Connectors are defined by the FHWA NHS as highways that "provide access between major intermodal facilities and the other four subsystems making up the National Highway System."
