

Modes of Transportation Projects Points, North Carolina Department of Transportation (NCDOT), Prioritization 7.0, July 2023

File Geodatabase Feature Class

Tags

Projects, Modes, Bike, Ped, Aviation, Rail, Transit, Ferry, Transportation, North Carolina Department of Transportation (NCDOT), Strategic Prioritization Office of Transportation (SPOT)

Summary

The purpose of this point data is to display Bike/Ped, Aviation, Rail, Transit, and Ferry projects. These projects that are scored and considered for Prioritization 7.0.

Description

The N.C. Department of Transportation (NCDOT) uses a transparent, systematic and data-driven process for prioritizing the major transportation in North Carolina and making investment decisions. Projects are evaluated based on their merit through an analysis of the existing and future conditions, the benefits the project is expected to provide, the project's multi-modal characteristics and how the project fits in with local priorities. Each of NCDOT's modes uses a data-driven approach for ranking projects. The outcome of the strategic prioritization process serves as input to the Draft State Transportation Improvement Program.

This feature class is used to store point Bike/Ped, Aviation, Rail, Transit, Ferry, projects that are scored and considered for Prioritization 7.0. Projects are identified by a Strategic Prioritization Office of Transportation Identification number (SPOTID) and include fields/information, such as Deleted (Y/N), GroupID (Project Submitter ID), Project Status (Draft or Submitted), Mode, Type of User (the type of user who submitted project).

For further information about domains and fields used in SPOT see the SPOT P7 Domains document here:

Use limitations

SPOT On!ine is the NC Department of Transportation's online project prioritization evaluation system. All data used for scoring and evaluating projects, including scores and preliminary point-in-time cost estimates either generated by the SPOT On!ine application or provided by the user, are only intended for use in the Department's Strategic Prioritization Process. All SPOT On!ine project data will be used for preliminary level planning, scoring, and evaluation purposes only, and must undergo further review prior to use in the Department's programming process. By entering SPOT On!ine, the user hereby acknowledges this statement.

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional

accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

LINEAGE STATEMENT

The data was prepared by the Strategic Prioritization Office of Transportation (SPOT) group. This data contains point project spatial location. It is a feature class that contains carryover point projects from past Prioritization cycle as well as new projects inputted into the SPOT On!line user per Prioritization cycle. This data includes information such as the SPOTID, Roadway Location Type, Deleted (Y/N), GroupID (who submitted), Mode (Transportation type), and Project Statue (Draft/Submitted).
