Summary

Properties in the state of North Carolina on which transportation/transit entities are located. This includes: Airports, Seaports, Freight Intermodal Terminals, Military Base, Rail Depot, Park and Ride Lots, Major Transit Terminals, and Ferry Terminals.

Description

Properties in the state of North Carolina on which transportation entities are located. This includes: Airports, Seaports, Freight Intermodal Terminals, Military Base, Rail Depot, Major Transit Terminals, and Ferry Terminals. This layer was derived from the Federal Highway Administration (FHWA), National Highway System (NHS) Intermodal Connectors. Intermodal Connectors are defined by the FHWA NHS as highways that "provide access between major intermodal facilities and the other four subsystems making up the National Highway System." The locations of the intermodal connectors was overlaid with the parcel layer of the county in which it is located and the parcels selected to be merged into a new polygon layer. Additionally, some local terminals/public transportation hubs in urban areas were included as well.

This is a dataset of the multimodal passenger terminals used for the Multimodal [+ Military] Highway criteria for the NC Department of Transportation (NCDOT) Prioritization 7.0 (P7.0) process. List of terminals is comprised of the following: Amtrak rail and bus stations, major transit terminals, commercial service airports (yellow), red and blue groups of General Aviation airports, major military bases, park and ride lots, and ferry terminals. Dataset includes all terminals within North Carolina. Point locations depict entrance(s) to each terminal.

For the purposes of the Strategic Planning Office of Transportation Prioritization (SPOT) 7.0 project, data is not updated after March 2023.

For further information about domains and fields used in SPOT see the SPOT P7 Domains document here:

Use limitations

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

SPOT On!ine is the NC Department of Transportation’s online project prioritization evaluation system. All data used for scoring and evaluating projects, including scores and preliminary point-in-time cost estimates either generated by the SPOT On!ine application or provided by the user, are only intended for use in the Department’s Strategic Prioritization Process. All SPOT On!ine project data will be used for preliminary level planning, scoring, and evaluation purposes only, and must undergo further review prior to use in the Department’s programming process. By entering SPOT On!ine, the user hereby acknowledges this statement.

LINEAGE STATEMENT

This layer was derived from the Federal Highway Administration (FHWA), National Highway System (NHS) Intermodal Connectors. The data were further manipulated by the North Carolina Department of Transportation Geographic Information Systems Unit and/or the North Carolina Department of Transportation Strategic Prioritization Office of Transportation (SPOT) to produce the required data for Prioritization 7.0.

PROCESS STEP ►

DESCRIPTION

The data was received from the Federal Highway Administration (FHWA) and the National Highway System (NHS) Intermodal Connectors.
