**Purpose**

This document will serve as a reference for all domains utilized in feature classes, feature services, and tables in SPOT On!ine, Prioritization 7.0. It is intended for use as a companion document to more complete metadata available for the respective datasets listed for each domain.

**Credits**

North Carolina Department of Transportation GIS Unit, Strategic Prioritization Office of Transportation (SPOT)

**Use limitations**

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

SPOT On!ine is the NC Department of Transportation's online project prioritization evaluation system. All data used for scoring and evaluating projects, including scores and preliminary point-in-time cost estimates either generated by the SPOT On!ine application or provided by the user, are only intended for use in the Department's Strategic Prioritization Process. All SPOT On!ine project data will be used for preliminary level planning, scoring, and evaluation purposes only, and must undergo further review prior to use in the Department's programming process. By entering SPOT On!ine, the user hereby acknowledges this statement.

**Domain:** CountyStateCodes

**Dataset(s):** LRS\_Route\_Segments

**Definition:** Code of 0-99 representing all 100 counties in North Carolina. Also codes of 901-904 representing bordering states.
