

North Carolina Comprehensive Transportation Plans Non-System Roads, North Carolina Department of Transportation, Prioritization 7.0, July 2023

File Geodatabase Feature Class

Tags

Comprehensive Transportation Plan (CTP), CTP, Non-System Roads, Prioritization 7.0, (P7), Strategic Prioritization Office of Transportation (SPOT), North Carolina Department of Transportation (NCDOT)

Summary

Line feature class consisting of non-system roads (roads that are not on the state maintained system and not on the Primary and Secondary Road Arcs (LRS Arcs)) and proposed facilities.

Description

A Comprehensive Transportation Plan (CTP) is a long term, long range transportation plan for municipalities, counties, and large metropolitan areas. It represents a community's consensus on the future transportation system needed to support anticipated growth and development over a twenty-five to thirty year time frame. It includes the existing system as well as improvements.

A comprehensive transportation plan is a mutually adopted legal document between the state and the local area partner(s). When a CTP is adopted by the North Carolina Department of Transportation (NCDOT), it represents the state's concurrence with the identified transportation needs and proposed recommendations. It should be clear that it does not commit the NCDOT to funding or constructing those project proposals, or to a particular cross-section.

For the purposes of the Strategic Planning Office of Transportation Prioritization 7.0 project, data is not updated after July 2023

For further information about domains and fields used in SPOT see the SPOT P7 Domains document here:

Use limitations

The North Carolina Department of Transportation shall not be held liable for any errors in this data. This includes errors of omission, commission, errors concerning the content of the data, and relative and positional accuracy of the data. This data cannot be construed to be a legal document. Primary sources from which this data was compiled must be consulted for verification of information contained in this data.

SPOT On!ine is the NC Department of Transportation's online project prioritization evaluation system. All data used for scoring and evaluating projects, including scores and preliminary point-in-time cost estimates either generated by the SPOT On!ine application or provided by the user, are only intended for use in the Department's Strategic Prioritization Process. All SPOT On!ine project data will be used for preliminary level

planning, scoring, and evaluation purposes only, and must undergo further review prior to use in the Department's programming process. By entering SPOT Online, the user hereby acknowledges this statement.

RESULT EXPLANATION

The dataset is converted to file geodatabase (FGDB) format using tools in ArcGIS. Quality checks were performed by the Strategic Prioritization Office of Transportation (SPOT) and the North Carolina Department of Transportation Geographic Information Systems Unit and errors were accepted as within business range or identified as exceptions.

SPOT On!ine is the NC Department of Transportation’s online project prioritization evaluation system. All data used for scoring and evaluating projects, including scores and preliminary point-in-time cost estimates either generated by the SPOT On!ine application or provided by the user, are only intended for use in the Department’s Strategic Prioritization Process. All SPOT On!ine project data will be used for preliminary level planning, scoring, and evaluation purposes only, and must undergo further review prior to use in the Department’s programming process. By entering SPOT On!ine, the user hereby acknowledges this statement.
