

STIP Viewer Report: Map Table

NCDOT STIP

The N.C. Department of Transportation's long-range transportation plan – called the State Transportation Improvement Program (STIP) – identifies the construction funding and schedule for state transportation projects over a 10-year period. NCDOT updates the STIP approximately every two years. The data-driven process to update the STIP is called [Strategic Prioritization](#). For more information, visit [NCDOT's STIP web site](#).

Map Table

STIP Viewer is a map-based, publicly accessible web application designed for searching and viewing STIP project information. It shares the STIP Manager database. STIP projects can be queried using one or a combination of the following filters: County, Route/Facility, Division, MPO/RPO, and STIP ID. STIP Viewer also includes the ability to view both the Comprehensive Active STIP report and the Comprehensive Board Approved STIP report.

After executing a query, the resulting STIP projects are displayed in the map and a table appears below the map. The table lists the query's STIP projects and provides general project and funding information.

Point of Contact

North Carolina Department of Transportation, Office of Strategic Planning and Programming
State Transportation Improvement Program Data Manager
stipunit@ncdot.gov
1 South Wilmington Street
Raleigh, NC 27601

Hours of service: 9:00am - 5:00pm Monday – Friday
