

# 2015-2019 American Community Survey Title VI & Environmental Justice Populations for the State of North Carolina, July 2022 - NC Department of Transportation

File Geodatabase Feature Class

## Tags

Polygon, North Carolina, NCDOT, Title VI, Environmental Justice, Transportation Planning, Transportation, Location, Statistical Boundaries, Census Block Group, census data, demographic data, demographics, population, age, race, language, household data, poverty.

## Summary

U.S. Census Block Groups for North Carolina with total population, age, race, language, poverty, and vehicle ownership statistics. This Title VI and Environmental Justice demographic data is from the 2015-2019 series of the 5-year (60 months of collected data) American Community Survey product of the U.S. Census.

Title VI of the Civil Rights Act of 1964 and related nondiscrimination laws prohibit discrimination on the basis of race, color, national origin, limited English proficiency, income status, sex, age, and disability in programs and activities receiving federal financial assistance. As a federal-aid recipient, NCDOT must ensure nondiscrimination and equal opportunity in all NCDOT programs and activities – whether or not those programs and activities are federally funded – including associated activities performed by NCDOT's business partners. Contractors and consultants performing work for NCDOT must comply with NCDOT's nondiscrimination requirements, and are responsible for the following: Reviewing the Title VI and Nondiscrimination section(s) in your contract or agreement with NCDOT. Under federal-aid contracts, incorporating the appropriate Title VI clauses into contracts with your subcontractors or sub-consultants. Contacting the NCDOT business unit or program under which you are contracted with any questions regarding your contract requirements. Connecting with NCDOT's External Civil Rights Section concerning your nondiscrimination obligations, if more assistance is required. Please visit NCDOT's Title VI Nondiscrimination Program for additional program information.

## Description

The American Community Survey (ACS) is an ongoing survey by the U.S. Census Bureau. It regularly gathers information previously contained only in the long form of the decennial census, such as ancestry, citizenship, educational attainment, income, language proficiency, migration, disability, employment, and housing characteristics. These data are used by many public-sector, private-sector, and not-for-profit stakeholders to allocate funding, track shifting demographics, plan for emergencies, and learn about local communities. Sent to approximately 295,000 addresses monthly (or 3.5 million per year), it is the largest household survey that the Census Bureau administers.

A Census Block Group is a geographical unit used by the United States Census Bureau which is between the Census Tract and the Census Block. It is the smallest geographical unit for which the bureau publishes sample data, i.e. data which is only collected from a fraction of all households. Typically, Block Groups have a population of 600 to 3,000 people.

## Lineage

#### LINEAGE STATEMENT

The American Community Survey (ACS) is an ongoing survey by the U.S. Census Bureau. It regularly gathers information previously contained only in the long form of the decennial census, such as ancestry, citizenship, educational attainment, income, language proficiency, migration, disability, employment, and housing characteristics.

The US Census Bureau creates organized, easy-to-use File Geodatabases pre-joined with ACS data, available for download as an easier alternative to using the American Fact Finder interface. What is known as "Title VI data" is a set of statewide Census Block Group feature classes containing, by Block Group, US Census American Community Survey (ACS) 5-year estimates for select race, language, and economic variables.

#### PROCESS STEP

WHEN THE PROCESS OCCURRED **2022-07-06 00:00:00**

#### DESCRIPTION

The North Carolina Block Groups with 2015-2019 ACS 5-year estimates data is available to download as a File Geodatabase from the U.S. Census TIGER/Line with Selected Demographic and Economic Data web site.
