Locate Route Tool

Input Output

County Name*

Alamance

Route Class*

Secondary Route

Route Number*

1,657

Route Qualifier*

Normal Route

Execute

Help

Using the Locate Route Tool

1. Click on the **More** button to list additional application tools.
2. Click on **Locate Route Tool** to open the tool panel.
3. Enter the route information.
4. Click on Execute.
5. If the tool executes successfully, the route is highlighted on the map, and the “Output” tab is opened.
The results are accessible through the Layer List Tool, too.
6. Click on the 3 dots next to the result to view other options, such as zoom and export.
7. Click on the route to view the result details.
