The Mapping Services goal is to provide the most accurate and current information possible. Map data is compiled from numerous sources with varying dates of publication and map accuracy standards. As a result, the accuracy represented on system maps may be less than the accuracy of the data provided with many. This map includes state-maintained roads and selected non-system roads.
The information shown on this map was last updated in September 2015. For additional information, visit http://connect.ncdot.gov/resources/mapping/Pages/default.aspx or contact our phone at (919) 715-9480.
