

The Mapping Section's goal is to provide the most accurate and current information possible. Map data is compiled from various sources including aerial photography, ground surveys, and other data. The data is processed and converted into a digital format. The data is then used to create maps. The data is not guaranteed to be 100% accurate. For additional information, visit <http://www.ncdot.gov/transportation/mapping> and click on Data Providers or contact us by phone at (919) 855-8480.
