

The Mapping Section's goal is to provide the most accurate and current information possible. Map data is compiled from various sources including aerial photography, GIS data, and other available information. The data is processed and corrected for errors and inconsistencies. The data is then used to create the maps. The maps are subject to change without notice. For additional information, visit <http://www.ncdot.gov/transportation/mapping> and click on Data Providers or contact us by phone at (919) 855-8480.
