

The MS&U's goal is to provide the most accurate and current information possible. Map data is compiled from numerous sources, including aerial photography, ground surveys, and other data. As a result, roads and other features may not always be shown in the most current location. For additional information, visit <http://www.ncdot.gov/transportation/mapping> and click on Data Providers or contact us at (919) 835-9480.
