

The MS&J's goal is to provide the most accurate and current information possible. Map data is compiled from numerous sources including aerial photography, ground surveys, and other data. As a result, some features may not be shown or may be shown differently than they appear in reality. Map data is not intended to be used for navigation purposes and is not a substitute for a compass or other navigation device. For additional information, visit <http://www.ncdot.gov/transportation/mapping> and click on Data Providers or contact us at (813) 855-8440.
