NCDOT Coordinator

Dear Sir:

Subject: **Application for Section 404 Nationwide Permits 23 and 13 and Section 401 Water Quality Certification** for the replacement of Bridge No. 15 over Little Yadkin River on SR 1604 (Spainhour Mill Road) in Forsyth County, Federal Aid Project No. BRZ-1604(4), Division 9, T.I.P No. B-4744.

Debit $240.00 from WBS No. 38517.1.1

The North Carolina Department of Transportation (NCDOT) proposes to replace bridge No. 15 over Little Yadkin Road on SR 1604 (Spainhour Mill Road) in Forsyth County.

An onsite detour located west of existing bridge will be used. There will be 423 feet of permanent stream impacts due to replacement of the bridge and associated roadfill. Bank stabilization accounts for 21 linear feet of stream impacts requiring no mitigation whereas the remaining 402 linear feet of stream impacts (two streams each at 215 feet and 187 feet, respectively) will require mitigation at 1:1 ratio.

Please see the enclosed copies of the Pre-Construction Notification (PCN), USACE Jurisdictional Determination Letter, Ecosystem Enhancement Program (EEP) letter, stormwater management plan, permit drawings, and design plans for the above-referenced project. The Categorical Exclusion (CE) for this project was completed in March 2010. Additional copies are available upon request.

This project let date for the project is February 19, 2013 with a review date of December 17, 2012. However, the let date may advance as additional funds become available.

Ecosystem enhancement PROGRAM

June 7, 2012

Mr. Gregory J. Thorpe, Ph.D.
Manager, Project Development and Environmental Analysis Unit
North Carolina Department of Transportation
1548 Mail Service Center
Raleigh, North Carolina 27699-1548

Dear Dr. Thorpe:

Subject: EEP Mitigation Acceptance Letter:

B-4744, Replace Bridge Number 15 on SR 1604 over the Little Yadkin River, Forsyth County

The purpose of this letter is to notify you that the Ecosystem Enhancement Program (EEP) will provide the compensatory stream mitigation for the subject project. Based on the information supplied by you on June 5, 2012, the impacts are located in CU 03040101 of the Yadkin River basin in the Central Piedmont (CP) Eco-Region, and are as follows:

Yadkin 03040101 CP	Stream			Wetlands			Buffer (Sq. Ft.)	
	Cold	Cool	Warm	Riparian	Non-Riparian	Coastal Marsh	Zone 1	Zone 2
Impacts (feet/acres)	0	0	402	0	0	0	0	0

This impact and associated mitigation need were under projected by the NCDOT in the 2012 impact data. EEP will commit to implement sufficient compensatory stream mitigation credits to offset the impacts associated with this project as determined by the regulatory agencies using the delivery timeline listed in Section F.3.c.iii of the N.C. Department of Environment and Natural Resources' Ecosystem Enhancement Program In-Lieu Fee Instrument dated July 28, 2010. If the above referenced impact amounts are revised, then this mitigation acceptance letter will no longer be valid and a new mitigation acceptance letter will be required from EEP.

If you have any questions or need additional information, please contact Ms. Beth Harmon at 919-715-1929.

Sincerely,

James B. Stanfill for

Michael Ellison
