Asheville, NC 28801-5006

ATTENTION: Mr. David Baker
NCDOT Coordinator

SUBJECT: **SUPPLEMENT to Nationwide Permit 23 and 33 Application** for the proposed replacement of Bridge No. 274 over Canoe Creek on SR 1248 in Burke County. Div. 13, FA Proj. # BRZ-1248(3), State Proj. # 82853501, WBS 33408.1.1, **TIP # B-4042, Action ID: SAW-2007-3497-312.**

REFERENCE: NW 23/33 Permit Application dated October 8, 2007.

Dear Sir:

Please consider this Supplement to the Nationwide 23/33 Permit Application for the referenced project sent on October 22, 2007. Attached is a revised drawing (Sheet 4) showing impacts to a newly formed wetland located within construction limits for the proposed bridge replacement. At the time of the December 2006 field visit, this wetland did not exist. It is believed to be the result of the adjacent delineated wetland expanding. The new area was discovered by DOT personnel in October while setting survey stakes for upcoming construction events. The Natural Environment Unit within PDEA was contacted immediately and visited the site in early November to investigate. The wetland expansion will result in an additional 0.01 acres of impact.

Thank you for your assistance with this project. If you have any questions or need additional information, please contact Jeremy T. Leamer at jtleamer@dot.state.nc.us or (919) 715-7726.

Sincerely,

Gregory J. Thorpe, Ph.D., Environmental Management Director
Project Development and Environmental Analysis Branch
