**Describe the attachments or add comments:**

Reverification of this project is requested as the previously issued Nationwide Permit will expire and construction, while underway, is not anticipated to be complete by the expiration.

The previously issued 404 and 401 Permits (Permit Package) and Application Package are attached. There have been no changes to design or impacts since the previously issued permits and the plans submitted with the original application package remain accurate and valid.

**Section 7**

The list of federally-listed species and/or designated critical habitat for this project has not changed since the application package was originally submitted. Construction has commenced and any potential habitat for protected species has been cleared, so no updated surveys are required.

**Archaeology and Historic Properties**

There have been no changes to Archaeology and Historic Properties since the previously issued permits.

**Tribal Coordination**

The project was coordinated with the federally-listed tribes prior to previous permit issuance and the list of federally listed tribes has not changed for this county.

NCDOT is hereby requesting reverification under Nationwide Permit 14.
