Dear Sir:

The North Carolina Department of Transportation (NCDOT) proposes to replace Bridge No. 162 over South Prong Stinking Quarter Creek on SR 1113 in Alamance County. The project involves replacement of the existing 81-foot structure with a 122-foot long bridge in the same location. There will be 13 feet of bank stabilization, 0.03 acre of temporary impacts for a work pad, and 10,469 square feet of riparian buffer impacts on this project.

Please find enclosed the Pre-Construction Notification (PCN) form, EEP acceptance letter, stormwater management plan, permit drawings, and design plans for the above referenced project. A Programmatic Categorical Exclusion (PCE) was completed for this project on May 13, 2011 and distributed shortly thereafter. Additional copies are available upon request.

The proposed let date for the project is November 20, 2012 with a review date of October 2, 2012. However, the let date may advance as additional funds become available.

Ecosystem Enhancement PROGRAM

March 6, 2012

Mr. Gregory J. Thorpe, Ph.D.
Environmental Management Director
Project Development and Environmental Analysis Branch
North Carolina Department of Transportation
1548 Mail Service Center
Raleigh, North Carolina 27699-1548

Dear Dr. Thorpe:

Subject: EEP Mitigation Acceptance Letter:

B-4955, Replace Bridge Number 162 on SR 1113 (Kimesville Road) over South Prong of Stinking Quarter Creek, Alamance County

The purpose of this letter is to notify you that the Ecosystem Enhancement Program (EEP) will provide the buffer mitigation for the subject project. Based on the information supplied by you on March 2, 2012, the buffer impacts are located in CU 03030002 of the Cape Fear River basin (Haw Arm) in the Central Piedmont (CP) Eco-Region and are as follows:

Buffer	River Basin	CU Location	Eco-Region	Buffer (in square feet)		
				Zone 1	Zone 2	TOTAL
Impacts	Cape Fear – Haw Arm	03030002	CP	1,694	279	1,973

This mitigation acceptance letter replaces the mitigation acceptance letter issued on January 31, 2012. All buffer mitigation requests and approvals are administrated through the Riparian Restoration Buffer Fund. The NCDOT will be responsible to ensure that appropriate compensation for the buffer mitigation will be provided in the agreed upon method of fund transfer. Upon receipt of the NCDWQ's Buffer Authorization Certification, EEP will transfer funds from the NCDOT 2984 Fund into the Riparian Restoration Buffer Fund. Upon completion of transfer payment, NCDOT will have completed its riparian buffer mitigation responsibility for TIP number B-4955. Subsequently, EEP will conduct a review of current NCDOT ILF Program mitigation projects in the river basin to determine if available buffer mitigation credits exist. If there are buffer mitigation credits available, then the Riparian Restoration Buffer Fund will purchase the appropriate amount of buffer mitigation credits from NCDOT ILF Program. EEP commits to implementing sufficient buffer mitigation credits to offset the impacts associated with this project as determined by the regulatory agencies. If the above referenced impact amounts are revised, then this mitigation acceptance letter will no longer be valid and a new mitigation acceptance letter will be required.

If you have any questions or need additional information, please contact Ms. Beth Harmon at 919-715-1929.

Sincerely,

Michael Ellison
