

STATE OF NORTH CAROLINA DEPARTMENT OF TRANSPORTATION

PAT L. MCCRORY GOVERNOR NICHOLAS J. TENNYSON Secretary

October 9, 2015

U.S. Army Corps of Engineers Regulatory Field Office 2407 West 5th Street Washington, NC 27889

- ATTN: Ms. Tracey Wheeler NCDOT Coordinator
- Subject: Application for Section 404 Nationwide Permit 6 for Field Investigations for a Proposed Wavebreak Structure and Subsequent Study to Serve as Mitigation to Offset Potential Loss of SAV Habitat During Construction of the Replacement of Bridge No 11 over Oregon Inlet on NC 12 in Dare County. TIP No. B-2500 Phase I, WBS Element 32635.1.3
- References:404 Permit Action ID: SAW-1993-03077 dated August 14, 2012401 Certification No 003939, dated September 7, 2012 & October 15, 2012

Dear Madam:

The North Carolina Department of Transportation (NCDOT) is planning a limited subsurface investigation to gather information for the foundation design of the above-referenced structure. A private engineering firm will conduct the investigation with up to 3 Standard Penetration Test (SPT) borings in the locations shown on the attached figure

The borings will be advanced from a shallow-draft floating barge at high tide in order to reduce the potential for impact to the substrate, and will consist of turning or driving 3-inch to 8-inch diameter steel casing into the sound bottom creating minimal disturbance. Other drilling tools will be used to sample the sediments and advance the hole within the steel casing. The steel casing will be removed upon completing the boring. Any disturbance from the borings should be limited to within a 2-foot radius of the boring location.

All borings will be made between the dates of October 19, 2015 and January 1, 2016.

Regulatory Approvals:

We are hereby requesting a Nationwide Permit No. 6 for borings occurring in the sound for the above mentioned activities.

If you have any questions or would like additional information, please contact Michael Turchy at maturchy@ncdot.gov or (919) 707-6157. A copy of this request will be posted at: https://connect.ncdot.gov/resources/Environmental/Pages

Sincerely,

- CAP

Richard W. Hancock, P.E., Manager Project Development and Environmental Analysis Unit

cc: John L. Pilipchuk, LG, PE, NCDOT-Geotechnical Engineering Unit Greg Daisey, NCDCM-Elizabeth City Garcy Ward, NCDWR-Washington

D. Impact Justification and Mitigation	D. Impact Justification and Mitigation							
1. Avoidance and Minimization	1. Avoidance and Minimization							
 Specifically describe measures taken to avoid or minimize the proposed impacts in designing project. Borings will occur from a barge. No structure or equipment will drag on the water bottom. 								
1b. Specifically describe measures taken to avoid or minimize the proposed impacts through construction techniques. NCDOT will implement "Guidelines for Avoiding Impacts to the West Indian Manatee, Precautionary Measures for Construction Activities in North Carolina Waters," during work for this project. Additionally, All borings will be made between the dates of October 19, 2015 and January 1, 2016.								
2. Compensatory Mitigation for Impacts to Waters of the	e U.S. or Waters of the	State						
2a. Does the project require Compensatory Mitigation for impacts to Waters of the U.S. or Waters of the State?	🗌 Yes 🛛 🕅 No							
2b. If yes, mitigation is required by (check all that apply):		ps						
 If yes, which mitigation option will be used for this project? Mitigation bank Payment to in-lieu fee program Permittee Responsible Mitigation 								
3. Complete if Using a Mitigation Bank

3a. In which local government's jurisdiction is this project?	n/a						
3b. Which of the following locally-implemented stormwater management programs apply (check all that apply):	Phase II NSW USMP Water Supp Other:	bly Watershed					
3c. Has the approved Stormwater Management Plan with proof of approval been attached?	☐ Yes	🗌 No					
4. DWQ Stormwater Program Review							
4a. Which of the following state-implemented stormwater management programs apply (check all that apply):	 Coastal counties HQW ORW Session Law 2006-246 Other: N/A 						
4b. Has the approved Stormwater Management Plan with proof of approval been attached?	🗌 Yes	□ No n/a					
5. DWQ 401 Unit Stormwater Review	Γ						
5a. Does the Stormwater Management Plan meet the appropriate requirements?	🗌 Yes	🗌 No					
5b. Have all of the 401 Unit submittal requirements been met?	🗌 Yes	🗌 No					

F. Supplementary Information		
1. Environmental Documentation (DWQ Requirement)		
1a. Does the project involve an expenditure of public (federal/state/local) funds or the use of public (federal/state) land?	⊠ Yes	□ No
1b. If you answered "yes" to the above, does the project require preparation of an environmental document pursuant to the requirements of the National or State (North Carolina) Environmental Policy Act (NEPA/SEPA)?	⊠ Yes	🗌 No
1c. If you answered "yes" to the above, has the document review been finalized by the State Clearing House? (If so, attach a copy of the NEPA or SEPA final approval letter.)	🖂 Yes	🗌 No
Comments: NEPA FEIS/EA/ROD for TIP B-2500		
2. Violations (DWQ Requirement)		
2a. Is the site in violation of DWQ Wetland Rules (15A NCAC 2H .0500), Isolated Wetland Rules (15A NCAC 2H .1300), DWQ Surface Water or Wetland Standards, or Riparian Buffer Rules (15A NCAC 2B .0200)?	🗌 Yes	🖾 No
2b. Is this an after-the-fact permit application?	🗌 Yes	🖂 No
2c. If you answered "yes" to one or both of the above questions, provide an explanation	of the violation(s):	
3. Cumulative Impacts (DWQ Requirement)		
3a. Will this project (based on past and reasonably anticipated future impacts) result in additional development, which could impact nearby downstream water quality?	🗌 Yes	🛛 No
3b. If you answered "yes" to the above, submit a qualitative or quantitative cumulative im most recent DWQ policy. If you answered "no," provide a short narrative description.	pact analysis in a	ccordance with the
4. Sewage Disposal (DWQ Requirement)		
4a. Clearly detail the ultimate treatment methods and disposition (non-discharge or discharge the proposed project, or available capacity of the subject facility.	arge) of wastewa	ter generated from
Not applicable.		

5.	5. Endangered Species and Designated Critical Habitat (Corps Requirement)							
5a.	Will this project occur in or near an are habitat?	🛛 Yes	🗌 No					
5b.	Have you checked with the USFWS co impacts?	⊠ Yes	🗌 No					
5c.	c. If yes, indicate the USFWS Field Office you have contacted.							
5d.	What data sources did you use to dete Habitat?	ermine whether your site would impact E	ndangered Species or I	Designated Critical				
	USFWS website and agency consul	tation; FEIS/ROD						
6.	Essential Fish Habitat (Corps Requ	irement)						
6a.	Will this project occur in or near an are	a designated as essential fish habitat?	🛛 Yes	🗌 No				
6b.	What data sources did you use to dete	ermine whether your site would impact E	ssential Fish Habitat?					
	NMFS county index; FEIS/ROD							
7.	Historic or Prehistoric Cultural Res	ources (Corps Requirement)						
7a.	7a. Will this project occur in or near an area that the state, federal or tribal governments have designated as having historic or cultural preservation status (e.g., National Historic Trust designation or properties significant in North Carolina history and archaeology)? Yes I No							
7b.	What data sources did you use to dete NEPA documentation; FEIS/ROD	ermine whether your site would impact hi	storic or archeological r	esources?				
8. F	Flood Zone Designation (Corps Requ	irement)						
8a.	Will this project occur in a FEMA-desig	nated 100-year floodplain?	⊠ Yes	🗌 No				
8b.	8b. If yes, explain how project meets FEMA requirements: This activity will not result in changes in permanent flood elevations.							
8c.	8c. What source(s) did you use to make the floodplain determination? approved NEPA documents							
R	Applicant/Agent's Printed Name (Agent's signature is valid only if an authorization letter from the applicant is provided.)
